From the official treasury report of 1840, I give the table No 6, for the year commencing the 1st of Octo, ber, 1838, and closing on the 30th of September, 1839, Spring Fashion.

THE subscriber has now on hand, and will continue to manufacture. (at his old stand, No.73 Wood street) the latest style of HATS and CAPS, which for beauty and durability cannot be surpassed. Thankful to his friends and the public for so liberal a patronage heretofore bestowed, he hopes to merit a continuance of their favors.

Hat and Bonnet Pressing, BY WILLIAM SCHOLEY, Between Wood and Smithfield Sts.

HAVING just returned from the eastern cities and purchased the most improved PRESSING MACHINES, is prepared to press gentlemen'shats and braid, straw, gimp or Legborn bonnets on the most reasonable terms, in the neatest manner and at the shortest notice. The subscriber believes that his long experience in the business is a sufficient guarantee that all work entrusted to him will be properly performed.

By table No. 6, it appears that the exports of our domestic products in 1820 of Texas that year, \$1,379,082, that the imports the same year from Texas what year, \$1,368,082; that the imports the subscriber and cAPS, will chart year, for excess in our favor, of exports over imports, of \$1,368, 966. Thus the extraordinary fact is exhibited, that the subscribe delatad, No.73 in the extraordinary fact is exhibited, that the subscribe delatad, No.73 in the extraordinary fact is exhibited, that the subscribe of HATS and CAPS, which for beauty and caps. Thankful to his friends and knore with Texas, exceeded that of excess in our favor, of exports over imports, of \$1,368, 966. Thus the extraordinary fact is exhibited, that the subscribe of HATS and CAPS, which for beauty and these two were colonies of an empire, our trade to the whole of which presented a balance of several millions against us. Texas, then, that year, furnished a larger balance of exports over imports in the two world. It was greater also than to either Russia, Prussia, Sweden and Norway, Portugal, New Grenada. Australia, French Guinea, Sar, domestic products in 18

ic products in 1839 to Texas was of the fisher ries \$43,426; of the products of the ferest \$157,474; of the products of agriculture \$205,860; and of our manufactures \$929,071. Now, by table No. 6 of the treasury report, the total exports, the same year, of the products of the fisheries to all the world, except Texas, was \$1,864.543; and consequently the exports of the products of the fisheries to Texas, that year, a mounted to about 21 per cent. of those exports to all the rest of the world. The exports of the products of the forest, that year to all, other countries, except Texas, by the same table, was \$5,607,035; consequently the export of these products, that year, to Texas, amounted to 3 per cent. of those exports to all the rest of the word. The exports of our agricultural products, (excluding cotton, rice, and tobacco,) that year, to lasses, inaccurately placed in the table of manufactures,) was \$11,156,057; and consequently the exports of these products that year to Texas, amounted to more than 2 per cent. of the agricultural exports that year to all the rest of the world. By the same table, the export of all our manufactures in 1939 (exclusive of gold and silver coin) to all other countries, except Texas, was \$3,217 595. Now, the exports of our du mestic manufactures, that year, to Texas being \$929,colds goes ahead of all the preparations now or 071, consequently Texas consumed of our domestic manufactures, in 1839, an amount largely exceeding one-fourth, and nearly equal to one-third of our domestic manufactures exported abroad and consumed that year, by all the rest of the world. Goods received stored and forwarded to any part of as they had done from 1837 to 1839, and as they must have done with her great increase of business and bus for her being placed towardsus, in the attitude of a foreign state, they would have amounted in 1843, to \$3,047,000, instead of \$190,000. Such has been the immense reduction in our exports to Tea-as, created by her recognition by other nations, and reat as were our exports to Texas in 1839, they were y no means as large as if she had then been a state f the Union; for she then had, and still has, in force a tariff on imports, varying on most articles from 10 to 15 per cent, which must have prohibited some of our exports there, and diminished others. Our tariff, also did not embrace Texas, and secure to our manufac tures almost a monopoly in her supply. Had all these causes combined, as they would have done, had Tevas been a state of the Union, our exports there of domes-tic articles must have reached, in 1843, \$7,154,139, as I shall proceed to demonstrate:

The products of Louisiana, by the census of 1840, were \$35,044,959, of which there was, in sugar and m4-tf No. 9, Market, and No. 74, Front st.
