HALL THOMAS PHILLIPS, IDITOR. PITTSBURGH, TUESDAY, APRIL 16, 1844.

FOR GOVERNOR H.A. MUHLENBERG

THE NEWSFLPER PRESS. - We have often designed to bring together a few notions on the subject of the rights of the powapaper press, and the duties of its conductors. The frequent indictments for Libel in our Courts, have brought the matter forcibly to our mind, and we now enter into the discussion, ant, howaver, with a view to touch upon the merits of the particular cases which have been, or may be, the subjects of legal investigation; nor with the desire of applying what we may say to any of those cases.

In the first place, we take it for granted, that the paramount object of every newspaper is, 'or ought to be, the dissemination of truth and the promotion of the public good. However ephemeral, malignant or mercenary the real object of the projectors of a new paper may be, they are sure to predicate their claim for patrongge on the advantage which they assume will ac-

true to the public from the establishment of theirpress. Whether the good they propose to do the commonwealth is to be worked out by the efforts of a religious sect, or by the labors of a political party; or whether the editor proposes to set up as a general political and Stratford, religious reformer, independent of any or all religious or political societies, still the public advantage is al-Plymouth, ways the principal plea upon which support is asked. Meriden, It is not our parpose to expatiate upon the immense influenco and benefit of a press honestly conducted, with a single eye to this grand design. That influence and

those benefits are felt and confessed by all, and, in fact, form a distinguishing feature of the age in which we The public good, then, being the ostensible object of all those who embark in the conduct of a newspa-

per, and not the attainment of private ends, they should were Arritiged before the Richmided County Genbe rigidly confined to that line of conduct which will eral Semico of Tuesday list, and a
