FOR GOVERNOR. H. A. MUHLENBERG.

Con the American or Gezette inform the public why the mamouf Mr Denny was not even mentioned of our whig friends-and the many sacrifices of former ions, which he has made for the benefit of the Clay cause, should entitle him to at least the commo restunded to others by the friends of the whig 6. But all Mr Denny's claims and merits of St Louis are much alarmed by the report of Captain stion, and they did not pay him or the State Crow, recently made to Congress, concerning the dan

made this sacrifice a sacrifice which must have been wed so much benefit from the course he has followed for some months past. The treatment he has received in this case is additional evidence of the truth of the eatimate Mr. D. placed on Henry Clay's character some years since. He and his leading advocates are preparing a publication made up of extracts from the deceive and betray those from whom they receive the distinguished whig leaders, which will exhibit Mr. his nomination injured his standing in this city, and it party as genuine sentiments of their leaders. is probable that it had some influence on the Baltimore Convention.

The American pours forth its satisfaction a Such conduct in that journal is heartless and ungranted to Mr. Denny. The neutral Sun of this city seems to be working 552 way gradually into the federal firmament, and we would not be surprised if it should, in a short time , shine out in full effulgance for the Clay and coon. It is now doing what it can for the whigs, by misreprese the democrats, and it will be an easy transition from this negative support, to an open advocacy of all the whig measures.
