at the several improvements projected on the Ohio
River, between Pittsburgh and Louisville. Bids to
be in quantities of from 5,000 to 20,000 toms. Satislogy, the dignity, forbearance, discretion, urbanity and gentlemanly bearing in every respect of the presiding officer of those exciting acenes. Constant in his efforts to preserve that decorum which should invariably characterize such an assembly, he is entitled to the respect, the esteem and the confidence of all.

Certained without great difficulty, and the committee have taken it into consideration.

2d. Absence of Flaws.—As the metal is forced out from the receivers under enormous pressure whilst acquiring its form, flaws are avoided, which so often exist in the ordinary castings. It is moreover probable, that such pressure, whilst consolidating the metal, dontributes to its strength.

at the several improvements probable to several improvements probable to make taken it into consideration.

2d. Absence of Flaws.—As the metal is forced out from the receivers under enormous pressure whilst acquiring its form, flaws are avoided, which so often exist in the ordinary castings. It is moreover probable, that such pressure, whilst consolidating the metal, dontributes to its strength. Another object too, would be gained by this plan—those who emigrated from the eparts to this city would at once be relieved from the trouble of interfering in our elections and enjoy the same exemption as other sitisens of the county. This you must admit would of itself be a great desideratum, to have these people shoe saved from the annoyance and eternal pestering and arging of our citizens to accept of nominations.
