U.S. BARK MR. ELLIS' RESOCUTIONS. We applied the residence involved by Mr. E. Lis, of New York, which passed the House by a dec

ded applority on Saturday night:
Resolved, That in the election of ANDREW JACK sox in 1882, and of Martin Van Berrn in 1836, the speople of the United States declared uncompromising hostility to a Bank of the United States, and that the ation of such bostility was not impaired by the election of General Harrison in 1840, under the public avowals made by him of his opinions in regar to a national bank, and under his association with the candidate for the Vice Presidency, whose sentiment were known to be hostile to such an institution during his whole public life; and that there is no reason to be-lieve that public openion on this question has changed

vince the electron of General Jackson.

Resolved, That a Bank of the United States, is its nature, hostile to the spirit of our institutions, and that its establishment would be destructive to the interests and dangerous to the liberties of the people. After a desultary debate, the previous question was demanded and sustained, and the following is the vote

upon their adoption:

The anti-pipe laying bill.-Every friend to the uncorrupted exercise of the right to vote, must regret that the whigs of the Senute have seen fit to defeat the bill, which recently passed the House of Representatives, providing for simultaneous election through out the United States. One of the great objects of the bill was to prevent the frauds which are known to have occurred at former elections, through the practice that some men adopted and others encouraged, of voting in several States during the same canvass. The ous schemes of the pipe layers which were carried out to such an alarming extent between Pennsyl vacua and this State, a few years since, have been a warning to the democracy, and the plan of one-da ons was devised to put a stop to some extent to the iniquity. There are many sagnetous politicians who sincerely believe that Mr Van Buren was cheated out of the Presidency in 1840 by means of illegal votes, which the money power, concentrated in the hands of the whigs in the cities and towns, enabled them to throw into the contested States. - N Y Post
