A UNITED STATES BANK, THE TRUE ISSUE.-IN his Speech at Macon, Guo., in April last, HERRY GLAT made the memorable declaration which follows: "I an in favor of a U.S. Bank. All nations set us the example."

In a speech at Charleston, S. C., about the same time, Mr Ciny spoke as follows: "I contend that it is necessary to charter a National

Bank to regulate and control the monetary system, aid heep it from explosion and mischief-that a National Bank is necessary to secure a national currency, chields as necessary to a nation as national laws." Had HENRY CLAY made these declarations years had we been left to infer his determination to re-

a Bank, if elected President, from his former votes, and acts, and speeches, the whigs night possibly have shuffled off and evaded this important issue-but he made the above doclarations in electionsering speeches, since this contest was begun, and those of his supporters who are disposed to act hypocritically or unfairly in this business, as they did in 1840, cannet play this unworthy game. Mr CI.AY is commit conditionally committed, in favor of a Bank .-

"s Bank like the old one," and no man who is honestly opposed to such an institution will vote for him. In parts of the country, where they think it will do. they are out "open mouthed" for a new "monster." The Hon Jos L WHITE, late a member of Congress from Indiana, but now residing in New York, lately oldressed the Young Whigs of that city, on the Bank question, in the following emphatic words, as reported in the New York Express:

"The whig party stand ogain, l am compelled to only, committed to the issue of A NATIONAL BANK. (applaum.) I know there are a set of men and poi-ticians in the whig ranks who go against a Bank, but is is die to deny that this is a whig measure, and shencer a whig orator or editor denies the issue, his whigim should be MISTRUSTED. He was either ignorant of what was a whig principle, or being wise, he sought to conceal it. For one I will rather surrender all claims to -uccris, rather than alandon surman an chains to success, retter than a and of ane whig principle. The whig policy was a compre-heasive one. It embraced the interests of the whole Union. In the West a Tariff was conceded to the North to protect her in her manufactures, but the Wess, the Whole Valley of the Mis-issippi, asked for Bar

of the country. The West demands a National Bank, and sho says nay. The balance of trade and exchange is in flower of this city, and though we in New York did not desire a National Bank, there were those who id, and they were bound with us in one common bond which. (Applause.) I speak from and for whig principles when I say that a National Bank was one of the issues of 1840. Name the institution what you please, but give it the power and principles of a great national regulator, with power to equalize

This is strong and plain language, and was received, the currency the Express says, with "applause." Mr WHITE comes matily up to the work, and sustains his leader with • generous aidor that does him credit. "Wkenever a utig orator or editor denies this issue [the Bank] HIS WHIGISM SHOULD BE MISTBUSTED. Hear this, ye shaffling, time serving editors and oraters of the Coons, who seek to evade this issue. "I am for a National Bank," says Mr. CLAT, and whoever goes against one, says Mr WHITE, is to be "MIS-TRUSTED." That is the fair and proper way to talk about this matter. The democrats gladly accept the isone, and difficurry every honest man in the country, the Bank, and its corruptions of the Bank, and its childendowing purser, against CLAY and his project.

The following is the "code of ethics" which per of the Gamptie lays down to govern his con-
