Bureau of Construction, Equipment and Repairs.

July 18, 1844.

TO carry into effect that part of the act of Congress, making appropriations for the naval service for the fiscal year ending June 30, 1845, which relates to the purchase of American water-closet Humps—Proposals will be received at this Bureau, until 3 o'clock, P. M. of the 29th day of August next, for delivery of the Navy Yard, Charleston, Mass., two hundred tons of American water-closet Humps.

This Hump must be equal in quality to the Riga Rein Hump heretofore purchased for the Navy, samples of which are now on file and ready to be delivered free of all expense to the United States, and be subject to the inspection and approval of persons who will be appointed by, and act under, instructions from the Navy Department.

Persons making offers must state the prices asked per ton of 2240 pounds, delivered at the Navy Yard, and must forward with them the office of persons of sufficient property to become sureties in one third the amount of the contract for its performance, if the offer should be accepted.

Separate proposals will be received for quantities of iron that they may not exceed two hundred tons. To diminish the hazard to contractors of forwarding Humps from the Western States, which may not be ready to give all the information in the Hump contract, the Secretary of the Navy has appointed two agents, who will, when requested, inspect that which may be prepared in full contract, and under this advertisement. One of these agents will inspect the Humps which may be sent to Louisville, Kentucky, and the other that which may be sent to St. Louis, Missouri. These agents will be furnished with samples of Riga Rein Humps, and with the means of testing Humps, and will be able to give all the information in the Hump contract, and to ascertain the strength and character of it, before it is forwarded to the Navy Yard. It is to be understood, however, that the inspection and opinion of these agents is merely to inform the contractor, and that the Hump contract can finally be received and paid for, at the time the whole quantity of the Hump embraced in any contract must be delivered at the Navy Yard in Charleston, Mass., on or before the first day of August, 1845.

In addition to the above, it will be required for the faithful performance of contracts, not only a personal security for its performance, but also an additional security will be paid within thirty days after the date of the contract, to be presented to the Navy Agent at Boston.
