

The Daily Morning Post.

PITTSBURGH, PA. SATURDAY MORNING, SEPTEMBER 28.

On our outside form will be found a Scotch story, entitled "Margaret and the Minister" - "The Grandfather of All Fish Stories," &c.

Another Stabbing Case - Yesterday afternoon a man named SAMUEL DODDS was stabbed in the Fifth Ward about a woman, and Dodd appearing to be the accepted one, Redding entered the house where he and his lady love were, and drawing a knife, stabbed Dodd in the shoulder, the wound extending under the arm, severing the blood vessels of the arm and reaching to the breast. He bled profusely, but Dr. HARTLEY dressed his wound, and, although he is in a critical state, hopes are entertained that he will recover. Redding was arrested.

STORAGE. THE spacious warehouse now occupied by the subscribers in Allegheny city, enables them to accommodate such persons as may desire to store for producer or other articles arriving by canal, on Liberty street. The greatest extent of this warehouse, the convenience of loading and unloading, and the fact of its being situated on the canal, are all inducements to all those desiring to deposit flour, &c., whom, by the cutting off of the Aqueduct, navigation is prevented from reaching Allegheny in Pittsburgh, as formerly. The requisites for storage are all attended to as required.

HENRY STANTON, Col. and Asst. Quarter Master General, U. S. Army, opposite Hand street Bridge.

INSTITUTIONS for the cure of the above disease have been in operation for the last twenty years in the principal cities of Europe, also in New York, and Charleston, South Carolina; reports of committees composed of the most respectable citizens in the different places where the Baths are established, can be seen at our office, which will show that these diseases which have heretofore been considered incurable have almost invariably yielded under the peculiar treatment of Dr. Whitlaw. The results which have been produced during the short time the Baths have been in operation in this city, we believe, renders it our duty to inform those who are so unfortunate as to be afflicted with any of the above diseases, that if they apply to us in time, they can generally expect a cure.
