CASPER SCROFULA, APOSTEMATOUS DIARRHEA OF THE COLON cured by Dr. W. H. WHITMAN'S VAPOR BATHS AND MEDICINE.

INSTITUTIONS for the cure of the above diseases have been in operation for the last twenty years in the principal cities of Europe, also in New York and Charleston, South Carolina reports of committees composed of the most respectable citizens in the different places where the baths are established and seen at our office, that will show that these diseases which have heretofore been considered incurable have almost invariably yielded under the peculiar treatment of Dr. W. H. Whitman. The results which have been produced during the short time the baths have been in operation are of an extraordinary nature, and have afforded many of the most interesting and valuable cures that have ever been recorded.

The following is an extract from a report published by the Institution at New York, showing the efficacy of the baths in all other remedial methods failing.

"Rheumatic, syphilitic and gonytic affections, attended with ulcers, blotches and eruptions of the skin, patches of mercury, scald head, scurvy, erysipelas, erythema, impetigo, dry scurfy, leprosy, ringworm, tetter, itching humors, hemorrhoids, and other diseases of the skin, scrofulous diseases are relieved and cured in a much shorter period and with much certainty than any other mode of treatment ever employed."
