CANCER, SCHOPULA, AND OBSTINATE DISRABLES OF THE SKIN CURED BY DE WHITLAW'S VAPOR BATH AND

INSTITUTIONS for the cure of the above disease have been in operation for the last twenty years in the principal cities of Europe, also in New York and Charlestn, South Carolina; reports of committees composed of the most respectable citizens in the different places where the Baths are established can be seen at our office, thet will show that these diseases which have heretyfore been considered incurable have almost invariably yielded under the peculiar treatmen of Dr Whitlaw. The results which have been produced in this city, we believe, renders it our duty to inform those who are so unfortunate as to be afflicted with any of the above diseases, that if they apply to us in me, they can generally expect a cure.

The following is an extract from a report published by the institution at New York, showing the efficacy of the Bath when all other remedies had failed:

"Rheumatic, syphilitic and gouty affections, attended with ulcers, blotches and eruptions of the skin, pared with meers, biotenes and eruptions of the skin, par-ticularly when originating from the improper use or abuse of Mercury, scald-head, salt-rheum, erysiplas, pimpled face, dry scurry, leprosy, ring-worm, tetters and all other hitherto unmanageable diseases of the skin, scrofulous diseases are relieved and cured in a much shorter period and with more certainty than any other mode of treatment ever employed."
