SEALED PROPOSALS will be received at this Bureau until 3 o'clock, P. M. of the 3d day of November, next, for furnishing and delivering at the respective Navy Yards near Portsmouth, New Hampshire; Charleston Massachusetts; Brooklyn, New York; Philadelphia; Washington, D C, and Gosport, Virginia, such quantities of cold rolled bolt copper and of hot rolled sheet copper, not exceeding one hundred thousand pounds of each at any one Navy Yard; and of round, flat, and square iron as may be ordered by the respective Commandants or Navy Agents, or by this Bureau, between the first day of January, 1845, and the 30th of June, 1846.

The flat Iron to not be less than one-fourth of an inch thick, nor more than six inches wide, the Square Iron not less than one-half an inch, nor more than three inches square, and the Round not less than one-half inch, nor more than three inches in diameter.

The Iron and Copper is to be of the best quality, free from flaws, ragged ends or edges, cracks or other defects, and true to the sizes ordered and must be subject to such tests and inspection as may be directed, and in all respects to the satisfaction of the Commandants of the respective yards, or it will not be received.

Any quantity not exceeding five thousand pounds of Copper or five tons of Iron to be delivered within ten days after the order shall be received, and one day will be allowed for every additional thousand pounds of Copper or additional ton of Iron that may be ordered. It is to be distinctly understood, however, that persons who may contract are not to have any claim or privilege to furnish any greater quantity of Iron or Copper than may be expressly ordered.

It is to be understood, also, that when persons reside at other places than those near which they engage to furnish articles, they will be required to appoint and duly authorize some person at or near the place of delivery, to receive and act upon the requisitions of orders which may be made; and in case the person who contracts, or his agent, should err or fail to comply with the requisitions or orders he may receive for articles under his contract, in proper time or of proper quality, the officers or agents of the Navy shall be authorized to purchase the same, and the contractor shall be liable for any excess of cost over his contract.

Separate proposals must be made for each Navy Yard, and for the Copper, and for the Iron, and the price asked per pound must be the same, for the bolt and sheet Copper; and for the round, flat and square Iron; that the different Iron may be correctly compared

Bonds, with two approved sureties in one half the estimated amount of the respective contracts, will be required, and ten per centum in addition to be withheld from the amount of each payment to be made, as collateral security for the due and faithful performance of the respective contracts; which will, on no account, be paid until the contracts are complied with in all respects. After deducting ten per centum, payment will be made by the United States, within thirty days after, bills, duly certified and approved, shall be presented to the Navy Agent of the Station where deliveries are made.

The power to reject all offers from persons who have heretofore failed to fulfil their contracts with the Government is expressly reserved by this Bureau.

**Paten Hot Air Cooking Stoves.**

THE subscriber having entered into the stove business in Pittsburgh, respectfully informs the public that he intends carrying it on in its various branches at the warehouse of Messrs. Peacock & Mitchell, No. 160 Liberty street, where he will be prepared to supply purchasers with any articles in his line. In addition to other Stoves which he will have on hand, he has obtained the right to manufacture and sell Hathaway's Patent Hot Air Cooking Stoves. This stove is pronounced superior to any other now in use in the United States; it is more durable in its construction, and better adapted to the use of baking, roasting and cooking, as it is heated very regularly by confining the air in the stove; and it is a great saving of fuel as well as labor. I will keep on hand a sufficient number to supply all demand, if possible; I have five different sizes, and will sell them on reasonable terms, according to size. I have now in use upwards of fifty in and about this city; all put in use within six months. Being aware that the People of Western Pennsylvania have been imposed upon by the introduction of new and highly recommended Stoves which were badly constructed, and having soon failed and become useless, I will grant to persons wishing to procure the Hot Air Stove, the privilege of using it a sufficient length of time to prove its superior quality before I ask them to purchase. Persons residing one from a distance by letter, can have stoves put up at any time, as I have wagons to carry them on; I therefore invite Farmers and all persons to come and judge for themselves; also to try them and prove that it is to your advantage to have one. All cast as will be promptly attended to by the subscriber.

*Report of the Committee of Cases submitted to the Medicated Vapor Bath, in Washington City.*

THE Committee appointed to superintend the use of the Bath in this city conceive that the time is arrived when they ought to report more fully to the public what they have now learned from experience and observation of the real use and efficacy of the Bath. They will detail nothing but facts which have came within their own knowledge. Since the bath was opened it has been used by all ages from 7 years to 70 and we believe in all cases it has been useful but the most numerous class of cases in which it has afforded almost immediate relief and in some complete cure, are those of recent colds, rheumatism, inflamed eyes, eruptions of the skin, scrofulous swellings, and general debility. A considerable number of patients whose eyes were so diseased that they had been compelled to abandon their usual avocations for many weeks and who had been subjected to every other mode of treatment without receiving any relief have been effectually cured by the bath in some cases by three times using it and in others six or eight times.—It has a remarkable effect of clearing the skin from troublesome eruptions and gives it a softness and freshness that is a striking indication of improved health.

THE PROPRIETORS

RESPECTFULLY inform their friends and shippers generally, that they have changed the name of their Transportation Line, from the United States Portable Boat Line, to the American Portable Boat Line.

This line is composed of twenty-five new Four Section Portable Boats, one of which will depart daily from Pittsburgh, Philadelphia and Baltimore.

The superiority and advantages of the Portable Boat over every other mode of transportation are too well known to shippers generally to require comment: suffice it to say, that the detention, loss, separation and damage to Goods, invariably attending three rail shipments between Pittsburgh and Philadelphia, is by the Portable Boats most effectually removed.

To give undoubted security to owners and shippers all goods and produce shipped by this line will be insured in a responsible office in Philadelphia, without any additional charge to the owners.

Merchandise shipped by this line in any of the eastern cities, and consigned to H Devine & Co, will be forwarded immediately on arrival at Pittsburgh in any part of the west, free of commissions.

H. Devine will receive produce consigned to him, pay steamboat freight and charges, and forward the same to any of the eastern cities, and charge no commissions for storage, advancing or forwarding. **PORTABLE BOAT LINE**

For the transportation of Merchandize to and from

PITTSBURGH, BALTIMORE, PHILADELPHIA, NEW YORK AND BOSTON.

THE success this line has met with, since it was first established on the "Individual Enterprise" system, has induced the proprietors to increase the number of Boats during the winter to twenty-five, one of which will leave Pittsburgh, Philadelphia and Baltimore every day (except Sundays) during the season, and make the trip through in six days.

The superiority and advantages of the Portable Boat System over every other mode of transportation (when canals intersect with rail roads) are too well known to shippers by this route generally to require any comment.

Shippers can rely on having their produce, merchandize, or goods of any kind that may be consigned to the Agents of this Line, forwarded with dispatch and at the very lowest rate of freight charged by other Lines, without any additional charge made for receiving or advancing charges, &c.

All communications to the following Agents will be promptly attended to:
