HATHAWAY'S Patent Hot Air Cooking Stoves.

THE subscriber having entered into the stove business in Pittsburgh, respectfully informs the public that he intends carrying it on in the various branches at the warehouses of Messrs. Patrick & Mitchell, No. 120 Water street, where he will be prepared to supply purchasers with any articles in his line. In addition to other Stoves which he will have on hand, he has obtained the right to manufacture and sell Hathaway's Patent Hot Air Cooking Stoves. This stove is pronounced superior to any other now in use in the United States; it is more durable in its construction, and better adapted to the use of baking, broiling and cooking, as it is heated very regularly by confining the air in the stove; and it is a great saving of fuel as well as labor. I will keep on hand a sufficient number to supply all demands; if possible I have five different sizes, and will sell them on reasonable terms, according to their value. I have now in use upwards of one hundred of this class; all put in use within six months. Being a ware that the People of Western Pennsylvania have been impatient to see the introduction of new and highly recommended Stoves which were badly constructed, and having soon failed and become useless. I will grant to persons wishing to procure the Hot Air Stove, the privilege of using it a sufficient length of time to prove its superior quality before I ask them to purchase. Persons notifying me from a distance by letter, can have stove put up at any time, as I have wagons to carry them out; I therefore invite Farmers and all persons to call on me, and examine the Stove, and to try them, and prove that it is to your advantage to have one. All orders will be promptly attended to by the subscriber. ROBERT DONAVAN.

William Adair, Boot and Shoe Maker, Liberty st. opposite the Head of Smithfield.

Mr. R. DURANT—Sir: I have had in use for two months, one of Hathaway's Hot Air Cooking Stoves, and I have no hesitation in saying it is the best stove now in use.
