MR DAVIS'S CONCERT.—This Gentleman gives a Concert of Vocal and Instrumental Music, on Monday evening next, at *Duquesne Hall*, which, report says, is a very *splendid Concert Room*.

It is now some time since we have had a GOOD CONCERT, and as Mr D. gives us a most excellent *Bill of Fare*, we trust that he will be liberally patronized. The Amateurs of the Flute will no doubt turn out in round numbers to hear the newly invented BOEHM FLUTE, of which the "MUSICAL CHRONICLE" (published in New York City) speaks in the highest terms of praise. Mr KLEBER plays his beautiful *Soiree Waltzes*, Mr SCHUBERT a Solo on the Clarionet. The *Vocal Department* will no doubt be well sustained by the respective Singers. *Go early*, as we expect the room will be crowded.

THEATRE—LAST NIGHT.—This evening, being the last of the season, is for the benefit of Miss CLARENDON, the enterprising and indefatigable Lessee.—The untiring industry with which Miss C. has labored for the amusement of her visitors during the past season, should insure her a crowded house at parting, and we hope her farewell benefit this evening, will be such as will cause her to remember the liberality of the friends of the drama in Pittsburgh.

HATHAWAY'S

Patent Hot Air Cooking Stoves.

THE subscriber having entered into the stove business in Pittsburgh, respectfully informs the public that he intends carrying it on in its various branches at the warehouse of Messrs. Peacock & Mitchell, No. 160 Liberty street, where he will be prepared to supply purchasers with any articles in his line. In addition to other Stoves which he will have on hand, he has obtained the right to manufacture and sell Hathaway's Patent Hot Air Cooking Stoves. This stove is pronounced superior to any other now in use in the United States; it is more durable in its construction, and better adapted to the use of baking, roasting and cooking, as it is heated very regularly by confining the air in the stove; and it is a great saving of fuel as well as labor. I will keep on hand a sufficient number to supply all demands if possible; I have five different sizes, and will sell them on reasonable terms, according to sizes. I have now in use upwards of fifty in and about this city; all put in use within six months. Being aware that the People of Western Pennsylvania have been imposed upon by the introduction of new and highly recommended Stoves which were badly constructed, and having soon failed and become useless, I will grant to persons wishing to procure the Hot Air Stove, the privilege of using it a sufficient length of time to prove its superior quality before I ask them to purchase. Persons residing me from a distance by letter, can have stoves put up at any time, as I have wagons to carry them out; I therefore invite Farmers and all persons to come and judge for themselves; also to try them and prove that it is to your advantage to have one. All orders will be promptly attended to by the subscriber.
ROBERT DONAVAN.

RECOMMENDATIONS.

Miller's Mansion House, Sept. 19, 1844.

Mr. R. DONAVAN—Sir: I have in use one of Hathaway's Hot Air Cooking Stoves, which I got from you last Spring. It affords me much pleasure to recommend it for its excellence. So far as my knowledge extends, I have no hesitation in saying it is the best stove now in use. I need not particularize its merits, but would advise all disposed to possess an article of the kind, to adopt the best method of satisfying themselves, that is, to try it; and I doubt not they will be satisfied.
D. B. MILLER.

Washington Temperance House.
Pittsburgh, Sept. 19 1844.

Mr. R. DONAVON—Sir:—I have had in use for five months, one of Hathaway's Hot Air Cooking Stoves, and I have no hesitation in saying it is the best stove now in use. The various kinds of cooking it is calculated to do at the same time, and the small quantity of fuel required, makes it an object worthy the attention of all who desire a good stove.
THOMAS VARNER.

☞I embrace this opportunity to recommend the Hot Air Cooking Stoves; I have used the one you put up for me constantly all summer, and I must say it is a grand article. I believe it is superior to any other stove now in use in this city. The oven bakes well, and is large enough to bake four large loaves of bread at one time; it also cooks very speedily, and it requires very little coal. I think them worthy the attention of all who wish a good stove; to such I would say, try them and prove what they are.

Medicated Vapor Bath.

COPY OF A LETTER FROM DRS. LAWRENCE AND HENRICKSON.

New Lebanon, State of New York.

WORTHY FRIEND:—Having made a thorough trial of the Medicated Vapor Bath for four months past, in our societies in New Lebanon and Watervliet, we think it but justice to state, that we consider it a valuable improvement in the healing art. Its power in reducing both chronic and acute inflamation, also in removing spasms, is certainly very great. In cases of obstructed perspiration, it is unquestionably the safest and best remedy that we have ever seen. Several persons in our society, who were scarcely free from a catarrhal affection during most of the winter months for several years past, have found permanent relief by using the Bath a few times; and the predisposition to take cold, as it is commonly termed, seems to be wholly removed. Obstructed perspiration, is certainly in our changeable climate, one of the most fruitful sources of disease, and any remedy that is capable of removing the predisposition to it, must be considered a great blessing to mankind; and as such we do not hesitate to recommend the Medicated Vapor Bath.

Bureau of Construction, Equipment, and Repair,

October 2d, 1844.

SEALED PROPOSALS will be received at this Bureau until 3 o'clock, P M. of the 3d day of November, next, for furnishing and delivering at the respective Navy Yards near Portsmouth, New Hampshire; Charleston Massachusetts; Brooklyn, New York; Philadelphia; Washington, D C, and Gosport, Virginia, such quantities of cold rolled bolt copper and of hot rolled sheet copper, not exceeding one hundred thousand pounds of each at any one Navy Yard; and of round, flat, and square iron as may be ordered by the respective Commandants or Navy Agents, or by this Bureau, between the first day of January, 1845, and the 30th of June, 1846.

The flat Iron to not be less than one-fourth of an inch thick, nor more than six inches wide, the Square Iron not less than one-half an inch, nor more than three inches square, and the Round not less than one-half inch, nor more than three inches, in diameter.

The Iron and Copper is to be of the best quality, free from flaws, ragged ends or edges, cracks or other defects, and true to the sizes ordered, and must be subject to such tests and inspection as may be directed, and in all respects to the satisfaction of the Commandants of the respective yards, or it will not be received.

Any quantity not exceeding five thousand pounds of Copper or five tons of Iron to be delivered within ten days after the order shall be received, and one day will be allowed for every additional thousand pounds of Copper or additional ton of Iron that may be ordered. It is to be distinctly understood, however, that persons who may contract are not to have any claim or privilege to furnish any greater quantity of Iron or Copper than may be expressly ordered.

It is to be understood, also, that when persons reside at other places than those near which they engage to furnish articles, they will be required to appoint and duly authorize some person at or near the place of delivery, to receive and act upon the requisitions of orders which may be made; and in case the person who contracts, or his agent, shall neglect or fail to comply with the requisitions or orders he may receive for articles under his contract, in proper time or of proper quality, the officers or agents of the Navy shall be authorized to purchase the same, and the contractor shall be liable for any excess of cost over his contract.

Separate proposals must be made for each Navy Yard, and for the Copper, and for the Iron, and the price asked per pound must be the same, for the bolt and sheet Copper; and for the round, flat and square Iron; that the different iron may be correctly compared.

Bonds, with two approved sureties in one half the estimated amount of the respective contracts, will be required, and ten per centum in addition to be withheld from the amount of each payment to be made, as collateral security for the due and faithful performance of the respective contracts; which will, on no account, be paid until the contracts are complied with in all respects. After deducting ten per centum, payment will be made by the United States, within thirty days after, bills, duly certified and approved, shall be presented to the Navy Agent of the Station where deliveries are made.

The power to reject all offers from persons who have heretofore failed to fulfil their contracts with the Government is expressly reserved by this Bureau.

THE PROPRIETORS

RESPECTFULLY inform their friends and shippers generally, that they have changed the name of their Transportation Line, from the United States Portable Boat Line, to the American Portable Boat Line.

This line is composed of twenty-five new Four Section Portable Boats, one of which will depart daily from Pittsburgh, Philadelphia and Baltimore.

The superiority and advantages of the Portable Boat over every other mode of transportation are too well known to shippers generally to require comment; suffice it to say, that the detention, loss, separation and damage to Goods, invariably attending three transhipments between Pittsburgh and Philadelphia, by the Portable Boats most effectually removed.

To give undoubted security to owners and shippers all goods and produce shipped by this line will be insured in a responsible office in Philadelphia, without any additional charge to the owners.

Merchandise shipped by this line in any of the eastern cities, and consigned to H Devine & Co, will be forwarded immediately on arrival at Pittsburgh to any part of the west, free of commissions.

H. Devine will receive produce consigned to him, pay steamboat freight and charges, and forward the same to any of the eastern cities, and charge no commissions for storage, advancing or forwarding. Any communications or goods directed to the care of the undersigned Agents will be promptly attended to.

C. A. McANULTY'S

UNITED STATES

PORTABLE BOAT LINE

For the transportation of Merchandize to and from

PITTSBURGH, BALTIMORE, PHILADELPHIA, NEW YORK AND BOSTON.

THE success this line has met with, since it was first established on the "Individual Enterprise" system, has induced the proprietors to increase the number of Boats during the winter to twenty-five, one of which will leave Pittsburgh, Philadelphia and Baltimore every day (except Sundays) during the season, and make the trip through in six days.

The superiority and advantages of the Portable Boat System over every other mode of transportation (when canals intersect with rail roads) are too well known to shippers by this route generally to require any comment.

Shippers can rely on having their produce, merchandize, or goods of any kind that may be consigned to the Agents of this Line, forwarded with dispatch and at the very lowest rate of freight charged by other Lines, without any additional charge made for receiving or advancing charges, &c.

All communications to the following Agents will be promptly attended to:
