From the Bakimere Republican. GOOD BYE TO THE WHIGS! A Song of rejoicing for November 4, 1844. AIR-"Dear Tom, this brown jug." Good bye to the whigs-their departure's at hand, In the cry o'er the length and breadth of the land: Tis re-echoed in gladness from mountain and glen, And it sounds like a sea 'mid the dwellings of men; All the folks that we meet are as merry as grigs, And each patriot's repeating, "Good by to the whigs.

Good bye to the trimming and treacherous crew, Who ne'er meant what was honest, ne'er spoke what was true;
A pack of Jew pedlars who knavishly sold,
Colored chrystals for jewels, mosaic for gold;
Colored chrystals for jewels, mosaic for gold;

OF New Goods, at Algro & M'Guirr's Fashion able Head quarters, No 251 Liberty Street. The newest styles and most splendid goods that is brought Too long they've been running their rascally rige;
But the trick is detected—Good bye to the whigs. What a budget they broached in the hour of distress stock, which for variety and richness of style cannot What a budget they broached in the hour of distress:
Ne'er were promises better, performances loss,
What savings in price would their projects have bro't.
Heavy duty on coffice, on luxuries nought!
He who bried, "In the great name of Mahomet—figs!"
Was not half such a boaster—Good bye to the whigs. With the father of falsehood their league is well known And their friend, while it lasted, was kind to his own.

But the lease is new out and their glory departs.

They have shot their last builet and but their own hearts! While the imps sent to fetch them are dencing their

jigs,

Let us sing in full chorus—Good bye to the whigs! Good bye to the whigs! their dominion is o'er, By force or by fraud they can rule us no more They may wriggle and writhe, but the struggle is vain And long years will roll on ere they rally again;
For in spite of some squeaking from Clay and his

prigs.
The Country has said it—Good bye to the whigs. In a lecture on the Goology of the United States, recently delivered in England by the Mr Lyell, he stated that the Onio coal fields extend for a length of seven hundred miles, and that that of Illinois is larger than the whole of England. The coal is formed in workable beds of considerable thickness, and in one instance there is a bed of coal forty feet thick-which comes up to the surface and is quarried like stone. Another branch of Mr Lyell's lecture was the consideration of the recessions of the Fills of Nicesand and the recessions of the Fills of Nicesand and the recessions of the Fills of Nicesand and the Fills of ecessions of the falls of Niagara. He exhibited a large pictorial scene representing the bod of the Nisgara river. The ravine formed by the gradual wearing away of the rocks by the waters of the Falls extends for seven miles, and there is no doubt that at one period the Niagara river fell over the cliffs at Queenstown three hundred feet high. The present theight of the Falls is 170 feet, and the rate of reces-

sion is about one foot in a year. Gunpowder Nullified - It is a singular suct that a French officer has discovered a see thod of taking away the explosive properties of gunpowder, to be restored at It is merely to mix the powder with finely powdered charcoal or black lead filling up the inter-stices between the grains; and if in this state it is set fire to, it merely fasos, and does not flume. In an explaced one upon each other, and the lower one lighted. It burnt in about twenty minutes, but the caloric developed had so little force, that the upper barrel was but oped had so little force, that the upper barrel was but lightly charred, and its contents uninjured. The power lightly charred, and its contents uninjured. The power is at any time rendered serviceable by sifting it.
