The Daily Morning Post.

PITTSBURGH, PA.

SATURDAY MORNING, DECEMBER 7, 1844.

The Gazette of yesterday announces in a tone of exultation that the House of Representatives have repealed the 25th rule, which forbid the reception of abolition petitions. This is the doings of the *democratic* House. Can the Gazette inform its readers when the *whig* Senate will repeal one of the rules which is more stringent on the subject of abolition petitions than the one just expunged by the House.

GIANT AND GIANTESS.—This is positively the last day they can be seen.

The farmers of the United States who labor with their own hands, have, at least in the proportion of three to two, voted for James K Polk at the late election, and thus secured the great democratic triumph. Of this class of men, even in the six New England States, who live beyond the excitement of the cities and villages, a large majority have voted for the democratic candidates for President and Vice President.

Death on the Railway.—We have to record another death on the Boston and Albany railway. A man named Lansing, a brakeman on a freight train, was yesterday thrown from the cars on to the track, by his head coming in contact with a bridge, a mile west of Pittsfield, under which the train was passing. Several of the cars passed over him, killing him on the spot. He leaves a wife and family. We understand that the man who took the place of Graves, who was killed near Pittsfield last week, was thrown from a freight train day or two since, by his head coming in contact with a bridge, and severely injured. On Thursday an accident took place on the same road, which had well nigh been attended with serious consequences. A portion of the leading train of three trains of freight cars, while ascending a grade near Worcester became detached and rushed with fearful speed towards the train which was approaching. One of the long freight cars ran completely over the locomotive and fell across the tender; the engineer and tender narrowly escaped with their lives.

HATHAWAY'S

Patent Hot Air Cooking Stoves.

THE subscriber having entered into the stove business in Pittsburgh, respectfully informs the public that he intends carrying it on in its various branches at the warehouse of Messrs. Pennock & Mitchell, No. 160 Liberty street, where he will be prepared to supply purchasers with any articles in his line. In addition to other Stoves which he will have on hand, he has obtained the right to manufacture and sell Hathaway's Patent Hot Air Cooking Stoves. This stove is pronounced superior to any other now in use in the United States; it is more durable in its construction, and better adapted to the use of baking, roasting and cooking, as it is heated very regularly by confining the air in the stove; and it is a great saving of fuel as well as labor. I will keep on hand a sufficient number to supply all demands if possible; I have five different sizes, and will sell them on reasonable terms, according to sizes. I have now in use upwards of fifty in and about this city; all put in use within six months. Being aware that the People of Western Pennsylvania have been imposed upon by the introduction of new and highly recommended Stoves which were badly constructed, and having soon failed and become useless. I will grant to persons wishing to procure the Hot Air Stove, the privilege of using it a sufficient length of time to prove its superior quality before I ask them to purchase. Persons notifying me from a distance by letter, can have stoves put up at any time, as I have wagons to carry them out; I therefore invite Farmers and all persons to come and judge for themselves; also to try them and prove that it is to your advantage to have one. All orders will be promptly attended to by the subscriber. ROBERT DONAVAN.

RECOMMENDATIONS.

Miller's Mansion House, Sept, 19, 1844.

Mr. R. DONAVAN—Sir: I have in use one of Hathaway's Hot Air Cooking Stoves, which I got from you last Spring. It affords me much pleasure to recommend it for its excellence. So far as my knowledge extends, I have no hesitation in saying it is the best stove now in use. I need not particularize its merits, but would advise all disposed to possess an article of the kind, to adopt the best method of satisfying themselves, that is, to try it; and I doubt not they will be satisfied. D. R. MILLER.

Washington Temperance House, Pittsburgh, Sept. 19, 1844.

Mr. R. DONAVON—Sir:—I have had in use for five months, one of Hathaway's Hot Air Cooking Stoves, and I have no hesitation in saying it is the best stove now in use. The various kinds of cooking it is calculated to do at the same time, and the small quantity of fuel required, makes it an object worthy the attention of all who desire a good stove.

THOMAS VARNER.

☞I embrace this opportunity to recommend the Hot Air Cooking Stoves; I have used the one you put up for me constantly all summer, and I must say it is a grand article. I believe it is superior to any other stove now in use in this city. The oven bakes well, and is large enough to bake four large loaves of bread at one time; it also cooks very speedily, and it requires very little coal, I think them worthy the attention of all who wish a good stove; to such I would say, try them and prove what they are.

UNITED STATES

PORTABLE BOAT LINE

For the transportation of Merchandize to and from PITTSBURGH, BALTIMORE, PHILADELPHIA, NEW YORK AND BOSTON.

THE success this line has met with, since it was first established on the "Individual Enterprise" system, has induced the proprietors to increase the number of Boats during the winter to twenty-five, one of which will leave Pittsburgh, Philadelphia and Baltimore every day (except Sundays) during the season, and make the trip through in six days.

The superiority and advantages of the Portable Boat System over every other mode of transportation (when canals intersect with rail roads) are too well known to shippers by this route generally to require any comment.

Shippers can rely on having their produce, merchandize, or goods of any kind that may be consigned to the Agents of this Line, forwarded with dispatch and at the very lowest rate of freight charged by other Lines, without any additional charge made for receiving or advancing charges, &c.
