because it is essential to give them some latitude of choosing and refusing; but beasts should be under abcol. If you suffer them to gain the mastery trusting.

There is a difference of opinion among horse dealers

n regard to the time when you should commence showspots in the country, by river and canal, almost at any ing your authority over the motions of the young horse. Some contend that they can be better broken after being allowed to run perfectly free for three or four years; an early age. One point is certain; It is best to let the celt run perfectly free, until the time comes when you have leisure to control him completely and effective. ially.—Half breaking is worse than no breaking; orders once given must be obeyed or your orders would The first step to be taken, in breaking a young horse,

s to convince him most satisfactorily that his halter s stronger than himself. If he breaks his first rope he will never forget it; you may fasten him afterwards hundred times with a timber chain and he will make hundred attempts to break it-because his memory is better than his judgment. He must not be suffered to break loose, at the first trying, on any consideration

We often see very gentle horses that will stand quietly in harness for hours if you attempt not to fasten them; yet they will give your haltar a try as soon as they find you have attempted to make it fast. This will never be the case if you have done your duty in halter breaking.
