To the Senate and House of Representatives: I transmit herewith copies of despatches received from our Minister at Mexico, since the commence ment of your present session, which claim, from their ment has thought proper to employ in reply to the re-monstrance of the Executive, through Mr. Shannon, against the renewal of the war with Texas while the question of annexation was pending before Congress, and the People, and also, the proposed manner of conducting that war, will not full to attract your attention. Such remonstrance, urged in no unfriendly spirit to Mexico, was called for by considerations of an imperative character, having relations as well to the peace of this country and konor of this Government as to the cause of humanity and civilization. Texas had enterdinto the Treaty of Annexation upon the invitations of the Executive; and when, for that act, she was threatened with a renewal of the war on the part of Mexico, she naturally looked to this Government to nterpose its efforts to ward off the threatened blow. But one course was left the Executive acting within the limits of its constitutional competency, and that A RE now receiving their spring importation of and decided terms against it. The war thus threat ened to be renewed, was promulgated by edicts and was to protest in respectful, but at the same time strong ened to be renewed, was promulgated by edicts and decrees, which ordered, on the part of the Mexicus military, the desolation of whole tracts, without disthrough which they are now receiving supplies DI-REOT FROM THE MANUFACTORIES IN tence. Also, a great variety of an observance of those principles, and the United States, the oldest of american Republics, and the here enormities were proposed to be enacted, could net quietly content themselves to witness such a state of things. They had, through the Executive, on anoth: perpetrate, and of which the late inhuman massacra

Tobasco was but the precursor. The bloody and inhuman mutder of Fannin and his companions, equalled only in savage barbarity by the usages of the untutored Indian tribes, proved how litle confidence could be placed on the most salemn stip ulations of her Generals, while the fate of others who secame her captives in war, many of whom, no longer able to sustain the fatigues and privations of long journeys, were shot down by the way side, while their commions who survived were subjected to sufferings even core painful than death—had left an indelible stain on the page of civilization. The Executive, with the evidence of an intention on the part of Mexico to enew scenes so revolting to humanity, could do po less than renew remorstrances formerly urged For fulfilling duties so imperative, Mexico has tho's proper, through her accredited organs, because she has had represented to her the inhumanity of such proceedings, to isdulge in language unknown to the courtesy of diplomatic intercourse, and offensive in the highest degree to this Government and People.

Nor has she affended in this only. She has not on: ly violated existing conventions between the two countries by arbitrary and unjust decrees against our trade and intercourse, but withholds instalments of debt, dge to our citizens, which she solemnly pledged herself to pay, under circumstances which are fully explained by the accompanying letter from Mr. Green, our Secre-

Nor will it escape the observation of Congress, that conducting a correspondence with the Minister of the United States, who cannot, and done not, know any distinction between the geographical sections of the Union, charges wholly unfounded are made against particular States, and an appeal to others for aid and protection against supposed wrongs. In this same connection, sectional prejudices are attempted to be excited, and hazardous and unpardonable effort is made to foment disunions among the States of the Union, thereby to embitter their peace. Mexico has still to learn, that however freely we may indulge in discussion among ourselves, the American People will tolerate an interference in their domestic affeirs by any foreign Government; and in all that concerns the contitutional guarantees and the national honor, the Peo ple of the United States have but one mind and one
