DEFALCATION .- Considerable excitement exists at Washington, in consequence of an apparent defalcation in the accounts of Mr McNulty, Clerk of the House of Representatives. The committee on accounts report that there is a deficit of \$44,500, and they state that they have ascertained that the money has been loaned out to Mr McNulty's personal friends, contrary to law, for the purpose of private speculation. It is elleged that among others who were favored with portions of the squandered funds, Levi D Slamm, of New Work, got \$2,000. Mr Slamm, I owever, denies this in the most positive manner, but says he got a check for \$2,000, cashed at the request of Mr McNulty, and handed over to him immediately. Mr McN. promis-of the Pa Canal. es to explain all, to account satisfactorily for every cent of the money, and to show that he has not expended any of it contrary to law. This he would have done before the Committee of Accounts, if it had waited until one of his assistant Clerks who was absent, and had the vouchers in his possession, had re-

We hope most sincerely that Mr M'Nulty will be able to acquit himself of the charge, and re-establish his good name. It is always painful to us to have to secord defalcations on the part of public officers, and it is increased when the delinquents happens to be attached to the democratic party. It never gave us any satisfaction to proclaim the dishonesty of even our political opponents; we would always rather see them triumph over the charges and suspicions that might be brought against them, by proving their honesty and their innocence. In the case of M. M'Nulty, we hope he will be able to show that there is no ground for suspicion against him, and that he can account for all the money that has been intrusted to his care. But if he cannot, we hope that no misdirected feelings of political sympathy will attempt to screen him from the full penalty of the law. We desire to see every facility afforded him to prove his innocence, but we would be sorry to find any one, calling himself a demoerat, endeavor to avert the consequent punishment of his guiltor negligence.

The excellent provision of the Independent Treasu-·ry law, to punish defaulters, which even a whig majority dared not repeal, has worked admirably in keeping pubdared not repeal, has worked admirably in keeping public functionaries to the straight line of honesty, and we would be sorry to see it now departed from in the slightest particular.
