subject, the greater is the degree of susceptibility to fra atracks. But in fractures, we have really no inflam mation to dread, nor blood to spare, for nature will require more than her usual supply to repair the injury ed, and, if needlessly subtracted, the period of cure will be proportionally prolonged.

With respect to cold applications, we do not always sufficiently discriminate the nature of the complaint for pain arising from contusion of parts, warm fomentszions are by far the most southing and efficient.

It is a trite observation, that old fractures are as sen sitive to atmospheric changes as the barometer.— Where warmth alose has been used the writer has nev-

SANTA FE! TEXAS THE PRAIRIE WILDS! THE INDIANS! Commerce of the Prairies, or THE JOURNAL OF

A SANTA FE TRADER,

By Josiah Gregg.

"It treats of a subject which is already of vast importance to our city, and is every day becoming more nteresting to our business men and manufact Pitteburgh Pool "These are a couple of most interesting volumes, well worthy to occupy a place beside the rich univa-tives of Irving, Kendall, Townsend and others. The writer appears to talk of what he fully understa writer appears to talk of what he fully understands, and in his perilous experience has gathered incidents illustrative of the peculiar character of the trade of the country and the inhabitants, that hold the reader with power equal to the magic web of fiction soften the heart with the privations and sufferings of our fellow man, and expand the mind with the wonds realities and vicisitudes of Life on the Prairies."

Philadelphia Saturday Courier. "We have here in two handsome volumes, a large amount of matter, not only of importance and value, but of deep interest."—N Y Con & Enq.

This work was also very favorably noticed by all the other most important N York Journals, as well as the press generally throughout the Union: also by many English Magazines and other periodicals. The following is from the London Palytechnic Review: "It is a valuable contribution to general literature, a very necessary and useful addition to our stock of eshmological knowledge, a most amusing, exciting and delightfulnarrative, not surpassed in interest by any we have lately read. We earnestly recommend the book to our readers
