PITTSBURGH BOARD OF TRADE. COMMITTEE FOR MARCH.

N. B. Craig, J. F. Kelly, A. Wylie, Jr. TESTING AN IRON SAFE .--- We were present, with withers, yesterday, at the testing of an Iron Safe, manufactured by Mr. JAMES COCHRAN, of the Fifth Ward. A number of newspapers were thrown loosely into the chest, and two bank notes were dropped into the drawer. The chest was then subjected to the action of a tremendous fire, made from dry wood; and carefully fed for upwards of an hour. For the greater part of the time the outside of it was red-hot. When the persons present thought the fiery test was sufficient. water was dashed upon the chest until it was sufficiently cooled to enable the workmen to remove it from the suge apply on board, or to feb 28. coals, and open the door. When the newspapers were taken out, some o

. them were slightly scorched, but the notes were wholly uninjured. The test seemed to us to be entirely satisfactory, and we are convinced that a safe constructed like this one, would keep books and papers unharmed For Freight or Passage apply on board, or to through the severest fire that could occur.
