The Daily Morning Post.

PITTSBURGH, PA.

TUESDAY MORNING, MARCH 11, 1845.

PITTSBURGH BOARD OF TRADE.

COMMITTEE FOR MARCH.

N. B. Craig, J. F. Kelly, A. Wylie, Jr.

☞On our outside form will be found a number of interesting articles.

FREE DOCUMENTS.—We are indebted to a friend in Washington city for copies of the Inaugural Address and of the Programme for the Procession on the 4th. He no doubt intended they should be "early copies," but his kind intentions were frustrated by the tardiness of the mails—we issued the Address in the afternoon of the 5th—his documents came lumbering along on the 9th—rather too late to be serviceable!

THE CANAL OPEN.—Mr JAMISON, the energetic Supervisor on the Canal, between this city and Blairsville, called upon us yesterday and told us that the Canal is now open to Johnstown, that it is in good order, and ready for any amount of business. The officers deserve much credit for their promptness and activity. We confidently anticipate that a large business will be done on our public works this season.

ST. PATRICK'S DAY.—There will be a supper in honor of Ireland's patron saint, on Monday the 17th inst., at the Emmett Hotel, in Allegheny. It is useless to say that this Supper will be prepared in superior style. The reputation of Mr SWEENY, for getting up entertainments of this kind too is well known and widely spread, and needs no endorsement. It is whispered, however, that the Supper on Monday next, will surpass any thing he has ever attempted in that line, and that the guests will find dishes on the table of unusual richness and rarity.

☞Yesterday was dark and dismal over head, and the rain and mud made the walking very disagreeable.

REMOVAL.—Constable, Burke & Co. have removed their Iron Chest Manufactory to Front street. See advertisement.

ERIE CANAL COMPANY.—At a meeting of the stock holders of this company on Monday week, the following gentle men were chosen directors for the ensuing year: R. S. Reed, B. B. Vincent, Wm. Kelley, T. G. Colt, James M Power, M. B. Lowry, and John A. Tracy. The directors afterwards re-elected RS Reed president.

☞All those in favor of taking a St. Patrick's Supper at the Washington Hotel on the evening of the 17th of this month, will please call at the above Hotel this evening at 7 o'clock, and make preparatory arrangements for the same.

DOCTOR EDMUND LANDIS'S

PATENT DOUBLE SPRING TRUSS.

For the Melioration and Cure of Hernia.

HUMANITY is deeply indebted to the ingenuity and persevrance of Dr Edmund Landis, a citizen of Lancaster, Pennsylvania, for a valuable improvement in the construction of the Truss for the melioration of Hernia or Rupture, which, after being carefully tested by application to a number of patients, has never failed to give relief, and in most cases has proved successful in effecting a permanent cure.

This improved Truss has been submitted to the most eminent members of the medical profession, who, after fair trial and examination, have concurred in pronouncing it an important discovery, particularly as it admits of perfect adjustment to the seat of the complaint, and of bearing with certainty upon the point where the pressure is required, without admitting of a chance of change or of shifting by any action of the muscles, hip or body,—the outer spring, which is very elastic, only giving, by which arrangement every movement is accommodated.

The suffering and imminent danger to life consequent upon that most distressing of all complaints, *Strangulated Hernia*, need never be apprehended by persons who wear this improved Truss, and the patient may cherish a confident hope, that in consequence of the intestine or omentum never being permitted to protrude in the slightest degree, that the distended ring or opening will gradually contract, and a permanent cure be effected, when the Truss may be dispensed with altogether.

This Truss may be very properly termed, Dr LANDIS' COMPOUND SPRING TRUSS: the springs being 2 in number, the inner and the outer, the latter lying over the former. The exterior spring is three times the length of the interior, upon the end of the latter the compress or eliptical pad or block is fastened, which rests upon the affected part. There is a small adjusting screw, which passes through the outer spring, immediately over the pad or block, and is formed to bear upon any part of the block, so that the pressure can be made to act immediately upon or over the rupture with the degree of force or weight which the case may require. The whole apparatus is so adjusted as to fit any peculiarity of form, at the same time so flexible as to occasion neither inconvenience nor uneasiness to the wearer, while following his usual avocations.

The following distinguished members of the Medical profession have borne ample and unqualified testimony to the palliative and curative value and importance of Dr Landis' discovery: George B Kerfoot, M D., and John L Atlee, M D., of Lancaster; Geo M'Clelland, M D., Professor of Surgery in the Pennsylvania and Jefferson College, and Samuel M'Clelland, M D., Professor of Anatomy in the same college; Samuel Martin, M D., Professor of Anatomy in the Pennsylvania College, &c.; James M'Clintock, M D., Professor of Surgery in Vermont College, &c.; John Wilbank, M D., and W B Grant, M D., Professor in the Pennsylvania College; Henry G Patterson, M D., Professor of Materia Medica in the Pennsylvania Medical College; to which we add with pleasure the respectable names of S Snyder, M D., J K Neff, M D., C L Baker, M D., and Henry Carpenter, M D., of Lancaster.

H H McCULLOUGH having purchased the patent right for making and vending the above TRUSS, is prepared to furnish them to all who may be afflicted with that disease. He is also prepared to fill all orders from Physicians and Druggists, and solicits their patronage. He will attend to applying the instrument; believing it to be superior to anything of the kind ever invented. He has put the price so low that it is within the reach of all. The testimonials of the eminent Physicians, whose names are above appended, are deemed sufficient recommendations.
