PATENT DOUBLE SPRING TRUSS.

For the Melioration and Cure of Hernia. HUMANITY is deeply indebted to the ingenuity and perseverance of Dr Edmund Landis, a citizen of Lancaster, Pennsylvania, for a valuable improvement in the construction of the Truss for the melioration of Herois or Rupture, which, after being carefuly tested by application to a number of patients, has never failed to give relief, and in most cases has proved ssful in effecting a permanent cure. This improved Truss has been submitted to the mos

mirent members of the medical profession, who, at ter fair trial and examination, have concurred in pro nouncing it an important discovery, particularly as it admits of perfect adjustment to the seat of the complaint, and of bearing with certainty upon the point where the pressure is required, without admitting of a chance of change or of shifting by any action of the muscles, hip or body,—the outer spring, which is very Turning done in the best manner and at the shortest elastic, only giving, by which arrangement every move ment is accommodated.
