THOS. PHILLIPS & WM. H. SMITH, EDITORS.

dispensable. The Managers seet to day to receive and consider plans for the new bridge, and we feel the is gathered to his fathers to be taxed no more. time be an ornament to the city. The attention of vor him with their patronage. new bridge, to a desire to make it please the eye, Joseph. still we should like to see tuste and beauty in its construction. Although the bridges which now span our rivers, are, without doubt, substantial and excellent of their kind, still, it cannot be deried that they present a clumsy and graceless appearance to the observer. There have been as great improvements in the construction of bridges for the last few years, as in

improving country; and in building this new bridge the Managers will no doubt avail themselves of the constructor of the new aqueduct, which he is a port of New Orleans: bout finishing, will submit a plan to the Man- Amount of Duties, first quarter, 1841 \$437,338 49 this terrible calamity. agers to-day, for the new Bridge. The industry and skill of Mr. Roesting, as manifested in th building of the Aqueduct, give him an exalted rank among the most scientific and useful men of our country, to which he is a valuable acquisition. Under the most discouraging circumstances, he has pushed the great public work he is now completing, and has produced a superstructure which, in the opinion of men best able to judge, will establish his fame as an

The great success of Mr Rozzums in building the Aqueduct, and his success is now almost universally conceded, even by those, who, at the outset, doubted strong claim on the support of the people of this city, gested, its adoption should not be delayed. However, and of those who take pride in its advancement. We feel confident that Mr. R., in submitting his public interest may not be regarded as too presumpdoubt its sufficiency, if such there be, that their doubts

wire bridges, who have given much consideration to the plan of their construction. Some, who appear to forget that the old plans to which they adhere so pertinaciously, were once new, and, as innovations, met up for the sufferers by the late fire—the people conthe opposition of the timid and over-prudent, oppose tributed for that specific object—and public expectathe opposition of the timid and over-prudent, oppose tion is, that the trust fund thus contributed, will be Houses the wire suspension bridge because it is comparative. applied to the purposes contemplated by those who To Congress, thus far, we have elected but on ly a new invention. Others think it would do as an have so liberally expressed benevolent feelings.

Aqueduct, but, by some unaccountable course of reasoning, arrive at the conclusion that it will not do for view of the rights of the sufferers to the fund in questions. a bridge! For our own part, after a careful examination of the Aqueduct, and a full explanation of the principles of the wire suspension, we are fully convin
of the sufferers of the money specifically designed for the sufferers of the 10th of April. The money belong to them. ced of its superiority over all plans now in use, and It is their property, and they only have a right to its sincerely hope the company may promptly contract with Mr. ROYBLING.

One great inducement to employ him, is the fact that he can build the bridge in as short a time as it can possibly be done,—we will not say in less time than be governed by them in all the relations of life.

Now, it is most manifest that the sufferers are naturely.

Now, it is most manifest that the sufferers are naturely.

Now, it is most manifest that the sufferers are naturely.

Much of his machinery and many of his tools he had to prepare for the Aqueduct, and this consumed time. The fact that these things are all ready, superadded to the circumstance that he would need no time.

The fact that these things are all ready, superone can doubt. The working multitude are first enadded to the circumstance, that he would need no timtitled to relief. The other class should bave id in ber but such as can easily be produced, would render it proportion to the necessities of each case; and if any easy forhim to complete the work this summer.

THE NEW AQUEDUCT.—We were much pleased distribution of the fund. But care should be taken that in the course of two or three weeks, we will have than one city lot of the value of one thousand dollars.

JOHN SMITH. of Roanoke. the pleasure of seeing boats passing across the new structure. This job, when finished, will reflect lasting PROCEEDINGS IN JEFFERSON TOWNSHIP. er, I blush to say that it am. Mr. Speaker, allow honor on Mr Roebling, the skilful contractor, and Agreeably to a previous notice a meeting of the cit- to pictur to your excited and denuded imagination. will settle, not only the practicability, but the great which rise from the superiority, of the wire superiority and the superiority of the wire periment. But as it progressed towards comple. The following persons were appointed: School No I of the enterprising builder.

Jeremiah Stailey.
Resolved, That each of the above named persons This work, when completed will be unsurpassed be authorized to collect the amount subscribed in his if indeed, equalled by any thing in the country, and district within two weeks from this day and pay it into will be a proud monument of the expansive views of the hands of the proper person in the city of Pittsburgh our city authorities, and the skill of our architects, in the name of Jefferson township. mechanics and workmen. When in successful operation it will be a source of immense revenue to the city, We understand says the St Louis Era, that a large and with the annual increase of our canal trade, it number of emigrants are congregated at Independence will, in the course of a few years, yield an unprece preparatory to their emigration to Oregon. There are two separate companies organized, and they will dented profit on the money invested.

It will long be a source of pride to the people of one thousand persons, and have a good supply of Pittsburgh, to remember that their city was the firs wagons and animals. All the houses in Independence Pittsburgh, to remember that their city was the first was under the state of grant adequate encouragement to this system; and were filled, and a large number were encamped in tents in the vicinity.

At St Josephs, in the Platte country, there was a ry man of enlightened liberality, that Mr Roebling nother large company, with about one hundred and may have abundant opportunities to employ his talents twenty wagons. They then expected to start about as successfully as he has in the construction of the earne time as the company did from Independence. Pittsburgh Aqueduct.
