

THE PHILADELPHIA AGES is abridged and condensed in a copy of an infidel meeting in New York "without finding the least fault."

We are surprised to hear the native organ condemning us as a party of men to be denounced for holding a public meeting. We thought it was a right to hold public meetings without being molested by those who entertain different opinions. If the ages does not republish the principles it has advocated for the last six months, it should be the last to desire any set of men to be denounced for holding a public meeting to promulgate their opinions, for according to it that is a privilege that all should enjoy, and that they are justifiable in committing indiscriminate murder and arson, if they should be interrupted in its exercise.

ASSASSINATION.—A letter dated Bayou Lafourche, Louisiana, April 15th, furnishes the following information: A frightful occurrence took place, a negro belonging to Mr. Van, had been ordered to kill the negro for several days, when on Wednesday, he perceived him attempt to cross the bayou. He called to the negro to stop, and rushed forward to seize him, but was not so successful as he wished to be, and the negro drew a dagger in his breast near the shoulder. Mr. Van fired at the negro, but the bullet did not pierce his breast. The murderer was arrested yesterday, tried, and sentenced to be hung next Thursday, on the spot where he committed the crime.

THE editor of the Gazette is trying to pick a quarrel with the Mormon Church in this city. He denies the assertion made in the Mormon paper that it was the prayers of the "Saints" that stopped the great fire on the 10th of April. Mr. Rigdon will not admit it.

GERMAN EMIGRATION.—A printed circular, dated October, 1844, shows that the number of individuals, who on the average of the last four years, annually migrate from Germany (chiefly to the United States) is about 90,000, and that they carry with them, at the least, a capital of five millions of Prussian dollars, or three millions and one-third United States currency. It further shows that the emigrants from Bavaria alone, for the five years from 1835 to 1839, amounted to 24,500, with a capital of seven millions of florins, or three millions of dollars in the currency of the United States. Germany is admitted to be among the best of emigrants, resolved to stay, steady, sober, and economical habits.

The millions of money which these emigrants bring with them, is a small consideration when compared with the immense advantages our country derives from their skill and industry. The labor of our adopted citizens, has done much to give our country the pre-eminence she occupies among the nations of the earth; and no sincere friend to our national property, would favor a policy that would deprive them of a home among freemen, and our country of the benefits of their patient industry.

IN TEXAS.—Twenty-eight persons in Crawford county have already signified their willingness to serve their fellow citizens in the various county offices, provided their fellow citizens will "give them a chance."

WE see that our friend M'Farland, of the Democracy, offers himself for the office of Prosecution. He is a gentleman in every respect, a sound democrat, and would make an excellent officer. We hope the people of Crawford will have the good sense to nominate him and elect him.

VIRGINIA ELECTION.—The Winchester Republican has a report that Col. Camden is elected to Congress in the Kanawha district. If this is true, it will give the whig two of the fifteen members.

IN THE LEGISLATURE.—There is still a democratic gain of nine. Not less than four editors have been elected to this body. We are sorry to say, however, that they are all whigs.

GOV. THOMAS AND DR. TYLER.—We learn from the Frederick Herald that early in the past week, as Dr. Tyler was coming out of the barber's shop, he met Governor Thomas on his way into it. Supposing either correct or falsely, that the latter was about to make an assault upon him, he raised his cane and pointed it at the doctor's head, who immediately raised the latter, when persons in the neighborhood interfered and separated them. On the charge of commencing an assault, the doctor was arrested for trial before the magistrate court.

THE Washington Union, alluding to the rumor that the President proposed sending Mr. Van Buren on a special mission to England, says: "We have a brief answer to all this. We understand that the mission has been offered to Mr. Pickens, of South Carolina, and that this is the first time we ever heard of such a proposition. We are satisfied that such a report is unfounded, and that it can only tend to make impressions upon the public mind."

THE Methodist Conference of New Jersey. The session of the annual conference of the Methodist Episcopal Church was convened at Mount Holly, on the 23d ult. About one hundred and twenty delegates of that denomination, from different parts of the State, assembled. Bishop Waugh, of Baltimore, presided. The statistics of the Methodist Church in New Jersey show its increase to have been very rapid during a few years past, and its present position to be in advance of any other denomination. For the year 1844 they stand as follows: Itinerant Ministers, 134; Churches and Chapels, 254; Sunday School Scholars, 15,246; Communicants, 32,157. The Conference Missionary Society celebrated its anniversary on Monday evening. Addresses were made by Bishop Jones and Rev. John Seay, recently returned from the Liberia Mission in Africa. Mr. Seay testified that the native tribes in the vicinity of the colonies were ready and anxious for religious instruction. The collection for the missionary cause amounted to \$5,000. The conference adjourned sine die on Tuesday last.

THE scholars of Mr. Wynum's Classical High School in St. Louis, have contributed \$39 in aid of the Pittsburgh sufferers.

THE St. Louis Reporter of the 29th ult. says, about \$300 are said to have been obtained by the Concert, at the Theatre, on Saturday evening, for the benefit of the Pittsburgh sufferers. For their charitable assistance to the unfortunate, the Swiss Bell Ringers and Messrs. Ludlow & Smith deserve the highest praise.

THE Eagle Lodge of Odd Fellows, in Providence, R. I., have appropriated fifty dollars towards relieving their brethren in this city, who were sufferers by the late fire.

STAY IS THE CURE.—The Westworth street Baptist church, of Christian, South Carolina, has protested against slaveholding, and declares its resolution is not to receive, that church must withdraw from the convention.

ORIGIN OF THE BRITISH CLAIM TO OREGON.

From the August (Ms.) Age.

The systematic encroachments of the British government upon the territorial rights of other nations is a matter of general notoriety. Scarcely a nation exists which has not at some time felt the insidious advances and grasping avidity of this nation for acquiring new territory. No sooner has that government fixed its eyes upon a territory or country which it finds desirable as an acquisition, than it sets on some vague, indefinite pretence of claim to it, which it argues with such plausible plausibility and perseverance, until it can extort an admission from its intended victim, that the territory thus claimed is its due. From that moment her success is certain. The title being once admitted to be in dispute, negotiation follows, in the progress of which, by bold assumptions on her part, and suggested admissions on the part of her adversary, she succeeds in procuring of him, in presenting a formidable array of arguments in support of claims, which at the outset had not the slightest foundation on which to rest. This was the process by which Maine was added to her territory, and the process by which she now proposes to plant her power in Oregon.

Our title to the Oregon territory is too well known to our readers to require that we should set it forth in detail. Suffice it to say, that from the year 1811 up to the time that the British broke up our settlement, on the Columbia, during the last war, we were open, and that up to that time the British had never intimated to our government that they had the slightest pretence of a claim to the territory of Oregon. It was not until the Oregon territory was too well known to our readers to require that we should set it forth in detail. Suffice it to say, that from the year 1811 up to the time that the British broke up our settlement, on the Columbia, during the last war, we were open, and that up to that time the British had never intimated to our government that they had the slightest pretence of a claim to the territory of Oregon.
