ed which shall not pass such inspectior. Persons who may wish to furnish hemp perfectly free from tow, and ready for spinning, can forward esparate proposals for such hemp; which hemp, if the proposals should be accepted, must, like the other, be ubject to inspection and approval at said navy-yard before it will be received.

Persons making offers must state the price asked per ton of 2,240 pounds, delivered at said navy-yard, and must forward with them an obligation from two persons of sufficient property to become sureties for the fulfilment of the contract to be entered into, in onethird the amount of said contract.

To diminish the hazard to contractors of forwarding hemp from the western States, which may not be of proper quality, or sufficiently well prepared, the Secretary of the Navy has appointed two agents, who will, when requested, inspect hemp that may be pre-pared and intended to fulfit contracts to be made under this advertisement. One of the agents will inspect the homp that may be sent to Louisville, Kestucky and the other that which may be sent to St. Louis, in Missouri. These agents will be furnished with sam-ples of the Riga Rein hemp, excepting for hemp fully prepared for spinning, and with the means of testing the strength of hemp, and will be ready to give all information is their power, to enable to contractors have their hemp properly prepared, and tr ascertain the strength and character of it, before the expense of sending it to the navy-yard is incurred. It must be disctly understood, however, that the inspection and spinion of these agents is merely to diminish the risk o contractors, by furnishing useful information. The only inspection by which the hemp can be finally re-ceived and paid for will be that at the navy-yard where it is to be delivered.

It is to be delivered. In addition to the bonds which will be required for the faithful performance of the contract, ten per centum will be deducted from the amount of all bills for de-All qualities from 25 cents to \$1 per yard. liveries, and retained until the completion of the con-tract, as additional security for its performance.
