COMMINATION OF STOCK AND MUTUAL SECURITY TAKES Fire, Marine and Inland Transportation risks, at the usual rates of other Offices in this city; but these who are or become Stockholders, may nsure Fire Risks on the mutual system, which is to pay half the premium in cash, and in lieu of the other half to give an obligation for five times the amount paid in cash, liable to rateable contribution during the term of the policy, in case it should be required. Stockholders have thus a chance to save one-half of the premium, and are besides entitled to a full share of dividend. Charter perpetual.

The mutual risk lessens in proportion to the amou of insurances.
