TO No. 124 WOOD STREET, ABOVE FIFTH HATHAWAY'S Patent Hot Air Cooking Stoves. THE subscriber having entered into the stove business in Pittsburgh, respectfully informs the public that he intends carrying it on in its various branches at the warehouse No. 124 WOOD STREET, above Fifth Street, where he will be prepared to supply purchasers with any articles in his line. In addition to other Stoves which he will have on hand, he has obtained, right to manufacture and sell Hathaway's Patent Hot Air Cooking Stoves. This stove is pronounced superior to any other now in use in the United States; it is more durable in its construction, and better adapted to the use of baking, roasting and cooking, as it is heated very regularly by confining the air in the stove, and is a great saving of fuel as well as will sell them on reasonable terms, according to size. There are now in use upwards of fifty in and about this city; all put in use within six months. Being aware that the People of Western Pennsylvania have been imposed upon by the introduction of new and highly recommended Stoves which were badly constructed, and having ascertained and become assured, I will grant to persons wishing to procure the Hot Air Stove, the privilege of using it a sufficient length of time to prove its superiority before I ask them to purchase. Persons wishing to see a specimen of the stove, may have it put up at any time, as I have wagons to carry them out; therefore invite Farmers and all persons to come and judge for themselves, and to be assured, that it is to their advantage to have one. Orders will be promptly attended to by the subscriber. ROBERT DONAVAN.

RECOMMENDATIONS. Miller's Magazine, Nov. 19, 1844. Mr. R. DONAVAN—Sir: I have used one of your Hot Air Cooking Stoves, which I got from you last Spring. It affords me much pleasure to recommend it to my friends. So far as my knowledge extends, I have no objection in saying it is the best stove now in use. I need not particularize its merits, but would advise all disposed to purchase an article of the kind, to adopt the best method of satisfying themselves, that is, to try it; and I doubt not they will be satisfied. D. R. MILLER.

Washington Temperance House, Pittsburgh, Sept. 12, 1844. Mr. R.
