Deware of Consumption. DR. DUNCAN'S EXPECTORANT REMEDY. We find from some of the Eastern papers, that this popular medicine is performing some of the most re-markable cures on record; in the City of Philadelphia, within the last year 2376 persons have been resto o perfect health, in New York 2788, Buston 1100. Baltimore 960, and we would suppose an average amount in all other Cities where this Medicine has been introduced. This fact is sufficient evidenceshowing the wonderful efficacy of this tguly valuable nedicine. We are acquainted with numerous perons in "our ci y" who have been restored to perfect breast and small of the back, heat of the skin, irreguagnin softened for the dies. The stamping machine pool. These are the kind of men, when they can be faintness, attended with weakness and general debility of the whole system, giddiness and dimness of sight, "There ought to be a Law ogin it."-There is a pain in the stomach, and sometimes vomiting, wasting well known old gentleman of this city, who has acquired a sort of notoriety by being always found on the gree of heat, increased pain in the breast and side, whig side of all questions through all mutations of spitting of a white, or green and white or bloody mat-time, men and place. He is the most consistant poli-ter, night swents, heetic fever, &c., &c. Such are tician of that school we have ever met with. His some of the most common symptoms of that dreadful remedy for all evil is in legislation; and his favorite destroyer, CONSUMPTION. And being a serious remedy for all evil is in legislation; and his favorite destroyer, consolutation. And being a serious phrase whenever any thing occurs to offend him, is, and solumn fact, will those afflicted any longer deprive LIBERTY STREET
