TO No. 124 WOOD STREET, ABOVE FIFTH HATHAWAY'S Patent Hot Air Cooking Stoves.

HE subscriber having entered into the stove busi wess in Pittsburgh, respectfully informathe pub-lic that he intends carrying it on in its various branches at the warehouse No. 124 WOOD STREET, above Fifth street, where he will be prepared to supply purchasers with any articles in his line. In addition to other Stoves which he will have on hand, he has Patent Hot Air Cooking Stoves. This stove is pro-nounced superior to any other now in use in the United States; it is more durable in its construction, and beter adapted to the use of baking, roasting and cooking, as it is heated very regularly by confining the air in the stove; and it is a great saving of fuel as well as lubor. I will keep on hand a sufficient number to supply all demands if possible; I have five different sizes, and will sell them on reasonable terms, according to sizes. I have now in use unwards of fifty in and about this city; all put in use within six months. Being aware that the People of Western Pennsylvania have been imposed upon by the introduction of new and highrecommended Stoves which were badly constructed, and having soonfailed and become useless. I will grant to persons wishing to procure the Hot Air Stove, the have stoves put on at any time, as I have wagons to carry them out; I therefore invite Farmers and all perpool Packets, and The United Line of Liverpool and prove that it is to your advantage to have and prove that it is to your advantage to have one.

DOCTOR EDMUND LANDIS'S PATENT DOUBLE SPRING TRUSS. For the Melioration and Oure of Hernia.

I UMANITY is deeply indebted to the ingenuity and perseverance of Dr Edmund Landis, a citi-sen of Lancaster, Pennsylvania, for availuable improvetion of Hernia or Rupture, which, after being carefully tested by application to a number of patients, has never failed to give relicf, and in most cases has proved uccessful in effecting a permanent cure.

This improved Truss has been submitted to the most emirent members of the medical profession, who, afobtained the right to manufacture and sell Hathaway's ter fair triel and examination, have concurred in pronouncing it an important discovery, particularly us it admits of perfect adjustment to the seat of the complaint, and of bearing with certainty upon the point where the pressure is required, without admitting of a chance of change or of shifting by any action of the muscles, hip or body,—the outer spring, which is very elastic, only giving, by which arrangement every move The suffering and imminent danger to life coase-

quent upon that most distressing of all complaints Strangulated Hernia, need never be apprehended by persons who wear this improved Truss, and the patient may cherish a confident hope, that in consequence of, he intestine or omentum never being permitted to protrude in the alightest degree, that the distended ring or opening will gradually contract, and a permanent cure be effected, when the Truss may be dispens ed with altogether.

This Truss may be very properly termed, Dr LAN DIS' COMPOUND SPRING TRUSS; the springs being 2 in number, the inner and the outer, the latter ying over the former. The exterior spring is three cheaper than it has heretofore been sold in this city. times the length of the interior, upon the end of the lutter the compress or eliptical pad or block is fastened, which rests upon the affected part. There is a small adjusting screw, which passes through the outer spring. immediately over the pad or block, and is formed to bear upon any part of the block, so that the pressure can be made to act immediataly upon or over the rupture with the degree of force or weight which the case may require. The whole apparatus is so adjusted as to fit any peculiarity of form, at the same time so flexible as to occasion neither inconven nor uneasiness to the wearer, while following his usual
