Bingham's Transportation Line,
BETWEEN PITTSBURGH AND THE EASTERN CITIES.

PROPRIETORS.

WM. BINGHAM, JACOB DOCK,
THOS. BINGHAM, WM. A. STRATTON.

Conducted on Sabbath-keeping principles.

THE Proprietors of the old established Line have thoroughly recruited and renewed their stock, and are well prepared to forward Produce and Merchandise on the opening of navigation.

The long experience of the Proprietors in the carrying business, with their watchful attention to the interests of customers, induces them to hope that the patronage heretofore extended to "Bingham's Line" will be continued and increased.

Deeming the usual self-glorifying style of advertising too absurd for imitation, and believing that with former customers we need no self-commendation, we would merely invite such as have not heretofore patronised our Line, to give us a trial.

Our rates of freight shall at all times be as low as the lowest that are charged by other responsible Lines.

Produce and Merchandise will be received and forwarded without any charge for advertising, Storage or Commission. Bills of lading promptly forwarded, and every direction carefully attended to.

Prospectus of the New Library of Law and Equity,

UNDER the direction of FRANCIS J. TROUBAT, Esq. of Philadelphia, Hon ELLIS LEWIS, of Lancaster, and WILSON M'CANDLESS, Esq. of Pittsburgh.

This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear they become monopolies in the hands of booksellers in the Atlantic cities. Under the plea of right acquired by the addition of notes of American decisions, the latter claim an undivided title to those works, and set a burthensome price on them.—The publishers of the work now offered to the profession througout the Union, will not respect such titles, but will re-print the standard British law books as fast as they eminate from the London market. Should new editions of the works of such writers as Starkie, the Chittys, Stephen and Archbold, appear, they shall also be included; and Digests of Equity and Law decisions—works which have been studiously kept out of the Law Library published at Philadelphia—shall have a place in the proposed new one, together with every new valuable English treatise on Chancery or Common Law.

☞ This work will be issued monthly in numbers of 160 pages, printed on fine white paper and good new long primer type, at seven dollars per annum, payable half yearly. ISAAC G. M'KINLEY,

REMOVED

TO No. 124 WOOD STREET, ABOVE FIFTH

HATHAWAY'S
Patent Hot Air Cooking Stoves.

THE subscriber having entered into the stove business in Pittsburgh, respectfully informs the public that he intends carrying it on in its various branches at the warehouse No. 124 WOOD STREET, above Fifth street, where he will be prepared to supply purchasers with any articles in his line. In addition to other Stoves which he will have on hand, he has obtained the right to manufacture and sell Hathaway's Patent Hot Air Cooking Stoves. This stove is pronounced superior to any other now in use in the United States; it is more durable in its construction, and better adapted to the use of baking, roasting and cooking, as it is heated very regularly by confining the air in the stove; and it is a great saving of fuel as well as labor. I will keep on hand a sufficient number to supply all demands if possible; I have five different sizes, and will sell them on reasonable terms, according to sizes. I have now in use upwards of fifty in and about this city; all put in use within six months. Being aware that the People of Western Pennsylvania have been imposed upon by the introduction of new and highly recommended Stoves which were badly constructed, and having soon failed and become useless. I will grant to persons wishing to procure the Hot Air Stove, the privilege of using it a sufficient length of time to prove its superior quality before I ask them to purchase. Persons notifying me from a distance by letter, can have stoves put up at any time, as I have wagons to carry them out; I therefore invite Farmers and all persons to come and judge for themselves; also to try them and prove that it is to your advantage to have one. All orders will be promptly attended to by the subscriber. ROBERT DONAVAN.

RECOMMENDATIONS.

Miller's Mansion House, Sept. 19, 1844.

Mr. R. DONAVAN—Sir: I have in use one of Hathaway's Hot Air Cooking Stoves, which I got from you last Spring. It affords me much pleasure to recommend it for its excellence. So far as my knowledge extends, I have no hesitation in saying it is the best stove now in use. I need not particularize its merits, but would advise all disposed to possess an article of the kind, to adopt the best method of satisfying themselves, that is, to try it; and I doubt not they will be satisfied. D. E. MILLER.

Washington Temperance House,
Pittsburgh, Sept. 19, 1844.

Mr. R. DONAVON—Sir:—I have had in use for five months, one of Hathaway's Hot Air Cooking Stoves, and I have no hesitation in saying it is the best stove now in use. The various kinds of cooking it is calculated to do at the same time, and the small quantity of fuel required, makes it an object worthy the attention of all who desire a good stove. THOMAS VARNER.

☞ I embrace this opportunity to recommend the Hot Air Cooking Stoves; I have used the one you put up for me constantly all summer, and I must say it is a grand article. I believe it is superior to any other stove now in use in this city. The oven bakes well, and is large enough to bake four large loaves of bread at one time; it also cooks very speedily, and it requires very little coal, I think them worthy the attention of all who wish a good stove; to such I would say, try them and prove what they are.

DOCTOR EDMUND LANDIS'S
PATENT DOUBLE SPRING TRUSS.
For the Melioration and Cure of Hernia.

HUMANITY is deeply indebted to the ingenuity and perseverance of Dr Edmund Landis, a citizen of Lancaster, Pennsylvania, for a valuable improvement in the construction of the Truss for the melioration of Hernia or Rupture, which, after being carefully tested by application to a number of patients, has never failed to give relief, and in most cases has proved successful in effecting a permanent cure.

This improved Truss has been submitted to the most eminent members of the medical profession, who, after fair trial and examination, have concurred in pronouncing it an important discovery, particularly as it admits of perfect adjustment to the seat of the complaint, and of bearing with certainty upon the point where the pressure is required, without admitting of a chance of change or of shifting by any action of the muscles, hip or body,—the outer spring, which is very elastic, only giving, by which arrangement every movement is accommodated.

The suffering and imminent danger to life consequent upon that most distressing of all complaints, *Strangulated Hernia*, need never be apprehended by persons who wear this improved Truss, and the patient may cherish a confident hope, that in consequence of the intestine or omentum never being permitted to protrude in the slightest degree, that the distended ring or opening will gradually contract, and a permanent cure be effected, when the Truss may be dispensed with altogether.

This Truss may be very properly termed, Dr LANDIS' COMPOUND SPRING TRUSS; the springs being 2 in number, the inner and the outer, the latter lying over the former. The exterior spring is three times the length of the interior, upon the end of the latter the compress or eliptical pad or block is fastened, which rests upon the affected part. There is a small adjusting screw, which passes through the outer spring, immediately over the pad or block, and is formed to bear upon any part of the block, so that the pressure can be made to act immediately upon or over the rupture with the degree of force or weight which the case may require. The whole apparatus is so adjusted as to fit any peculiarity of form, at the same time so flexible as to occasion neither inconvenience nor uneasiness to the wearer, while following his usual avocations.

The following distinguished members of the Medical profession have borne ample and unqualified testimony to the palliative and curative value and importance of Dr Landis' discovery: George B Kerfoot, M D., and John L Atlee, M D., of Lancaster; Geo M'Clelland, M D., Professor of Surgery in the Pennsylvania and Jefferson College, and Samuel M'Clelland, M D., Professor of Anatomy in the same college; Samuel Martin, M D., Professor of Anatomy in the Pennsylvania College, &c.; James M'Clintock, M D., Professor of Surgery in Vermont College, &c.; John Wiltbank, M D., and W B Grant, M D., Professor in the Pennsylvania College; Henry G Patterson, M D., Professor of Materia Medica in the Pennsylvania Medical College; to which we add with pleasure the respectable names of S Snyder, M D., J K Neff, M D., C L Baker, M D., and Henry Carpenter, M D., of Lancaster.

H H McCULLOUGH having purchased the patent right for making and vending the above TRUSS, is prepared to furnish them to all who may be afflicted with that disease. He is also prepared to fill all orders from Physicians and Druggists, and solicits their patronage. He will attend to applying the instrument; believing it to be superior to anything of the kind ever invented. He has put the price so low that it is within the reach of all. The testimonials of the eminent Physicians, whose names are above appended, are deemed sufficient recommendations.

LIGHT IS COME!
New Sperm, Lard and Fine Oil Lamp Store

THE subscribers having opened a store, No 8, St Clair street, (west side) for the sale of Lamps Oils, &c., respectfully invite the attention of the inhabitants of Pittsburgh, Allegheny and the surrounding country generally, to their stock of Lamps, before purchasing elsewhere. Our arrangements with the manufacturs are such that we can safely say, we are prepared to light *in the most brilliant and economical manner, Steamboats, Hotels, Public Halls, Churches, Stores, Shops, Parlors, Bridges and Streets*, as well as the more "dark and benighted corners, or any place where brilliancy, neatness and strict economy is desired. Among our means for letting our "*light shine*," may be found the following Lamps for burning Lard, Lard Oil and Sperm Oil. viz:

Hanging Lamps and Chandeliers, (2 to 4 branch) For lighting Stores, Public Halls, Churches, Hotels and steamboats.

Stand and Centre Table Lamps, (various patterns and prices,) for Parlors.

Reading and Work Lamps.

Side and Wall Lamps, Glass and Tin Hand Lamps &c. &c.

The above are mostly Dyott's Patent Lamps, with double shelled fountain, and otherwise an improvement upon any lamp now in use, which can be perceived at once by examination. Also, glass Trimmings for lamps, such as Globes, Chimneys, Wicks, &c.

LAST, THOUGH NOT LEAST.

Dyott's Patent Fine Oil Lamps, such as Hanging lamps and Chandeliers, (2 to 6 branch.)

Stand and Centre Table Lamps, (Glass Fronts with or without drops,) Street lamps for lighting streets and bridges.

As we cannot describe the various patterns, we cordially invite the public to examine them. We affirm that in brilliancy, cleanliness and economy, no light now in use will bear comparison with these lamps and Pine Oil. They are as safe to use as sperm or Lard Oil. Although some are endeavoring to identify this article with the old camphine and spirit gas, (by the use of which accidents have occurred,) we assert this to be another and different article, and that no accidents have occurred during the extensive use of this article in Philadelphia for four years.

These Lamps will produce as much light, with as much neatness and more brilliancy, and 25 per cent. less than any other light now in use, not excepting Gas.

If any one doubts statements we have, or may hereafter make, we would say, we have commenced our business in Pittsburgh, and knowing the merits of the articles we offer to the public, we are willing to hold ourselves accountable at all times for our statements, and are willing to put to test our Lamps—dollars and cents,—testing economy—and the public: decided on the neatness and brilliancy of the light.

We have many testimonials from residents of Philadelphia and elsewhere, but the following may suffice for the present.

This is to certify that I have purchased of M. B. Dyott a sufficient number of his Patent Pine Oil Lamps to light the Universalist Church of Philadelphia, and have used them in said Church about two years. I have found them to give perfect satisfaction. The light produced by them is the most brilliant that I have ever seen. They are so economical that the cost of the Lamps has been saved several times over; the lighting up of the Church not costing half as much as it did before we procure them.

Respectfully, JOHN DESSALET,
Secretary of the above named Church.
Philadelphia, July 3, 1845.

The undersigned having used for two years Dyott's Patent Pine Oil Lamps in his Hotel, the Bolivar House, can recommend them as the most economical and brilliant light that can be produced by any article now in use. Before I commenced lighting my house with the Pine Oil, I was using the Gas; but after a trial of the above Lamps, I was so much pleased with the light, and convinced of their economy, that I had the Gas removed and burn the Pine Oil in its place.

ALLEGHENY CITY, July 12, 1845.

This may certify that we, the undersigned, having used for some months, Dyott's Patent Pine Oil Lamps, can with the fullest confidence recommend them, as producing the most brilliant and economical light we have ever seen. They are simple in their structure, and easily taken care of, and we believe them as safe light as can be produced from any other Lamp, and much cheaper than any other kind of Oil.

Lo! what makes your teeth so unusually whith?
Quoth Josh's dulcinia to him t'other night,
To make yourn look so, with a grin, replied Josh,
I've bought you a bottle of Thorn's Tooth Wash,
'Tis the best now in use, so the gentlefolks say,
And since they have tried this, cast all others away.
But to prove it the best to make the teeth shine,
Look again, my dear Sal, at the lustre of mine.
Then try this great tooth wash,
The Teaberry tooth wash,
And see if this tooth wash of Thorn's is not fine.

Having tried Dr. "Thorn's Tea Berry Tooth Wash," and become acquainted with the ingredients of its composition, I cheerfully say, I consider it one of the safest, as it is one of the most pleasant tooth washes now in use. DAVID HUNT, Dentist.
Pittsburgh, Sept. 15, 1842.

I take pleasure in stating, having made use of "Thorn's Tea Berry Tooth Wash," that it is one of the best dentrifices in use. Being in a liquid form it combines neatness with convenience. While it cleanses the enamel and removes the tartar from the teeth, its perfume yields a fragrance peculiarly desirable.
J. P. TIBBETTS, M. D.

The undersigned have used "Thorn's Compound Tea Berry Tooth Wash," and have found it to be an extremely pleasant dentrifice, exercising a most salutary influence over the Teeth and Gums; preserving those indispensable members from premature decay, preventing the accumulation of Tartar, and purifying the Breath. Having thoroughly tested its virtues, we take pleasure in recommending it to the public, believing it to be the best article of the kind now in use.

WILL make insurance against Loss or Damage by Fire, in Pittsburgh and vicinity, on Houses, Stores and other buildings, and on Furniture, Goods, Wares and Merchandize, limited or perpetual, in town or country, on the most favorable terms.

The Mutual Principle, combined with a Stock Capital, and the other provisions of the Charter of this Company, hold out unusual inducements, both of profit and safety, to those desirous of effecting insurance, to which the Company ask the attention and examination of those interested.

The Capital Stock of the Company is invested in good and sufficient securities. After providing for the losses accruing to the Company, in the course of its business, the stockholders are entitled to receive out of its income and profits an interest not exceeding six per cent. per annum on the Capital Stock actually paid in—the amount of which interest, it is expected, will be supplied by funds invested—and thereafter, all the remaining profits are to accumulate and be held, in like manner with the Capital Stock, for the better security of the assured. But certificates bearing interest, payable annually, transferable on the books of the Company, and convertible at any time into Capital Stock, will be issued therefor to the Stockholders and insured members, in proportion to the amount of Stock held, or premium paid by them respectively, agreeably to the provisions of the Charter.

Those effecting insurance with this company have, besides the usual protection against loss, by the ordinary method of insurance, the additional advantage of a direct participation in the profits of the Company, without any liability.

GEO. W. TOLAND, President.
B. M. HINCHMAN, Secretary.

The subscriber, who is the duly authorized Agent for the above named Company, is prepared to make insurance, at the Office of the Agency, No. 97, West side of Wood street, 2d door above Diamond alley, and will give all further information desired.

INSURANCE AGAINST FIRE.
The Citizen's Mutual Insurance Company of Pennsylvania,
No. 152, Walnut Street, Philadelphia,

WILL insure houses, stores and other buildings; also merchandize, furniture and property generally, in Pittsburgh and the surrounding country, against loss or damage by fire, for any period of time. Charter perpetual.

No marine, river nor inland transportation risks are taken by this Company. It makes no dividends among stockholders. After paying the necessary expenses of the office, the whole accruing premium and interest are appropriated exclusively to meet losses. It is thus enabled to insure on terms not surpassed by any other Company.

The Columbia Insurance Company of Philadelphia,
A COMBINATION OF STOCK AND MUTUAL SECURITY.

TAKES Fire, Marine and Inland Transportation risks, at the usual rates of other Offices in this city; but those who are or become Stockholders, may insure *Fire Risks* on the mutual system, which is to pay half the premium in cash, and in lieu of the other half to give an obligation for five times the amount paid in cash, liable to rateable contribution during the term of the policy, in case it should be required. Stockholders have thus a chance to save one-half of the premium, and are besides entitled to a full share of dividend. Charter perpetual.

The mutual risk lessens in proportion to the amount of insurances. If fifty men insure any given sum, each one incurs a risk of 10 per cent.; but 500 men would only incur the risk of one-fifth of one per cent.

The Company has been in operation since 1840. Capital subscribed, $100,000, on which 20 per cent. have been paid in, which amount, with about 20 per cent. more, is safely invested in mortgages and other securities.

There is a considerable amount of bonds on hands, to be resorted to in case of losses, before any capital subscribed can be used. This is the great security, and this principle of mutual insurances has given great satisfaction.

Marine and Inland Transportation Risks taken on usual terms, as by other offices, and 10 per cent. of the premium returned if the risk end without loss.
