The argument of Col Benton in the speech re forced to was predicated upon the impression, which ferred to was predicated upon the impression, which is the seen by the above that they did not stop The Tariff Convent

tule of the United States derived from another source would warrant the Government in asserting a claim to Oregon, as far as the boundary of the Russian do-minions. Our title traced through Spain was not the test of the state, in the contrast of the state, in the second state of the state, in the state, in the second state of the state of th title of the United States derived from another source and Bluck Lick vullies, as surveyed and recommend-

minions. Our title traced through Spann was not threatened by the imaginary obstacles which the trea-threatened by the imaginary obstacles which the trea-ber of the most respectable and influential citizens of ty of Utrecht presented."

The following extracts from the speech made by Indiana county. Senator Benion in 1843, shows conclusively that he GALE AT ALBANT .- We learn from the Argus did believe the United States had a good claim beyond extra, that on Sanday and Monday a very severe gale visited Albany and its vicinity, duing a great deal of the 49th degree. Mr Benton suid : "The other point in our title, to which I wish to give a little more developement than it has received tom other speakers, is, its derivation under the treaty with Spain of 1819. By that treaty the United States succeeded to all the rights of Spain on the northwest succeeded to all the rights of Spain on the northwest interval of the more speakers, is and being the treaty the United States succeeded to all the rights of Spain on the northwest interval of the more speakers, is and being the treaty the United States the walls having reached 23 feet in height, and being 20 inches thick, was blown down. The loss to the city and county was heavy; the building when comsucceeded to all the rights of Spain on the northwest city and county was heavy; the building when con-coast of America north of 42 degrees. These rights, necording to the memoir of the Spanish minister, Don Onis, extended to the Russian possessions—the Bri-tish horing nothing on that coast! This was the representation of the Spanish minister; and with this, representation of the Spanish minister; and with this, the first state of the Spanish minister; and with this, the first state of the spanish minister; and with this,

representation of the Spentan minister, and with this, by the gate. the facts of the case served. The Northa Sound inverty and controversy of 1790 had decided that point! It decided that the Briti-h had no right to Northa, a decided that the Briti-h had no right to Northa, a Major Oliver - A letter from Chicago, dated Nov. decided that the British had no right to Nootka, a place four degrees north of the Columbia, and no way connected with it; and it ended in obtaining for the British the privilege, and nothing but the privilege, of fishing and hunting along the north west const, and the privilege of flour washed on shore. The following vest erroring the temporary huts which the pursuit of these reconstitions micht require. Colonization or settlement ercting the temporary huts which the pursuit of these occupations might require. Colonization or actilement was renounced. The treaty itse f, especially the 3d and the 6th articles, will provide this; and the parlia-mentary debates of the day correspond with the word-of the treaty. As a fact, that treaty nullifies all British elaim on the northwestern coast: as a law. if more the operated by word, it would still confine ditor of the State of Indiana, las certified to a com-
