The ASE OF THE LIVER.

DEAN SIX:—Agreeable to your desire, I write to keep you apprized of the prospects of the Clickener Sugar Coated Purgative Pill, in this city. You may recollect, when I first commenced selling your medicine, which was in May, 18.4, we little dreamed of the success that would crown the undertaking. Our premises had been so completely flooded by the one housand and one tinsuleable remedy for every possible complaint under the sun, that I seriously contemplated having nothing more to do with any thing of the New York Editors themselves. So much for their "favorable notices" in the public prints." The method we adopted in prosecuting our business being essentially at variance with any modification of deception, we never resort to the publication of acception, we never resort to the publication of such notices. Every business man in New York is well acquainted with the origin as well as the merits, of such editorialism, owing to which its utility here has long since ceased, and it rather diminishes than adds to the respectability of any New York establishment.
