DEAR SINE—Agreeable to your desire, I write to keep you apprized of the prospects of the Clickener Sugar Coated Purgative Pill, in this city. You may recollect, when I first commenced selling your medicine, which was in May, 18-4, we little dreamed of the success that would crown the undertaking. Our premises had been so completely flooded by the une thousand and one unsaleable remedy for every possible complaint under the sun, that I seriously contemplated having nothing more to do with any thing of the kind. However, at the most urgent solicitation, we consented to make a trial of yours. At first we found considerable difficulty in attracting public attention to words them. People had been so often deceived by the vile compounds which have flooded the country for the last 15 years or more, that they determined, if possible, never to be "taken in" again; and the consequence was, they could hardly be persuaded to accept of the Pills, as the saying is, for "love nor money." Thus matterrs proceeded for a week or two, when, as "good luck would have it, "Mrs. N.———, a lady of our city, who had long suffered from an affection of the Liver, accompanied by indigestion of the most obstinate character, was persuaded to accept of n box, on condition that nothing was to be paid for it, if they did not afford her the necessary relief. I must confess, we ourselves had very little laith in the mottet, knowing as we did, that her complaint was one of long standing, and had been unsuccessfully treated by the most eminent Physicians of this and several neighboring towns. But we had determined to give the medicine a fair trial, and if it proved to be worthless, it would be a source of satisfaction to know it, both to Stubbs Robert Strong John Switzer John Eldred E B Notice.

I certify that my wife was afflicted for fourteen years, during which time her disease buffled the skill of several emineut phycicians. Finding that every means that were used failed to relieve her. I cancle ded to place her in the Pennsylvania Hospital, lioping that, under the carc and treatment she would there receive feom the Physicians in that institution, she might again be restored to health. But to my great disappointment, she grew worse and became deranged in her mind, and I was obliged to take her home again, "INCURABLE" and BEREFT OF REASON. I will here mention that at this time the more prominent symptoms of her disease were Dyspepsia and Liver Complaint, attended with sickness of the stomach, and womiting of a very offensive feetid mucous, pains in her head, back and stomach, and through the region of the heart, a trooblesome cough from large quuntities of phlegm in her throat, which kept her coetinually gogging and retching to throw it up. She had no spectic, and was very weak. She also suffered very much from a uterine disease by which she was confined to her bed, having entirely lost the use of her limbs, and for several months we had to lift her in and out of bed. And to all the above, the deranged state of her mind (which at this time was truly awful), and you will be able to form some ilea of her afflications.
