DEAR SIR:—Agreeable to your desire, I write to keep you apprized of the prospects of the Clickener recollect, when I first commenced selling your medi-cine, which was in May, 18.4, we little dreamed of premises had been so completely flooded by the one e complaint under the sun, that I serio placed having nothing more to do with any thing of the kind. However, at the most urgent solicitation, we consented to make a trial of yours. At first we found considerable difficulty in attracting public attention to wards them. People had been so often deceived by wards them. People had been so often deceived by the vile compounds which have flooded the country for the last 15 years or more, that they dotermined, if possible, never to be "taken in" again; and the consequence was, they could hardly be persuaded to accept of the Pills, as the saying is, for "lave nor money." Thus matterrs proceeded for a week or two, when, is good luck would have it, "Mrs. N——, a lady of our city, who had long suffered from an affection of the Liver, accompanied by indigestion of the most obstinate character, was persuaded tonccept of a box, on conclution that nothing was to be paid for it, if they did not attord her the necessary relief. I must contest, we ourselves hadwery little faith in the matter, knowing as we did, that, her complaint was one of long standing, and had been unsuccessfully treated by the most eminent Physicians of this and several neighboring towns. But we had determined to give the medicine a fair trial, and if it proved to be worthless; it

would be a source of satisfaction to know it, both to you and to us. No less to our joy than surprise, how ever, only a few days had clapsed, when the lady again he city.

That your Pills are beginning to work a great change in my health, and altogether for the better. When I took the second dose, I began to feel much better than I did at first; the pain in my side was considerably re ieved; my appetite began to improve; and the blood seemed to circulate through my veins as it did in my youthful days. Since then, I have taken the remainder youthful days. Since then, I have taken the remainder of the Pills, and my improvement has been aensibly progressing at avery repetition of the dose. I have no doubt that a few more boxes will effectually coreme." The result was as she predicted. Her, health is completely restored. The flush of youth and beauty has returned to her cheeks, and the prospect of a long and a happy life is before her. I am satisfied she will never forget the Clickener Sugar-Conted Pills. As might naturally be supposed, the news of this extraordinary cure was rapidly disseminated through the city and discert country, and secretly a week had city and adjacent country; and scarcely a week had clapsed, before enquiries began to be made for Click not seem like exaggeration, I might almost say that we are literally besieged by women, and children, labor-ing under every possible allment, which "human flesh
