JOHN HIGGINS, Editor. PITTSBURGH, TUESDAY, MAY 26, 1846.

FOR A CANAL COMMISSIONER, WILLIAM D. FOSTER, JR., OF BRADFORD COUNTY.

Democratic County Convention.

It may not be improper at this time to remind the Democratic citizens of this county, of the importance of attending the primary meetings of the county Convention...

The "Barbarians" of Mexico. It will have been seen by the Boston Atlas, in the several statements that have from time to time been put forth relative to the material of the Mexican armies...

The New York War Meeting in the Park on Wednesday evening, was a great affair. The grounds were illuminated with a brilliant display of light, rockets, etc. and cannon discharged.

The Baltimore American remarks that the "Great Body of the Mexican Cavalry" being authorized by law to fit out vessels now in ordinary, and also purchase such merchant vessels or steamers as may be fitted for military purposes...

WAR AGAINST MEXICO.

War against Mexico.—An article in yesterday morning's New York Express gives, upon what authority we know not, but with some plausibility, at any rate, a kind of programme of the intended operations against Mexico, the substance of which we have thought not to be uninteresting to our readers. It looks to conquest.

It is said, to be invaded at four points: from the west upon the Capital, where is intended the ultimate concentration. To preserve our force from the surrounding columns are to march on the high regions of Central Mexico, which is said to be healthy as New York or Pennsylvania.

The President has deemed it best to call for the services of the Executive in the several States, and mustering eighty-four regiments and a battery. At the average of five hundred men in a regiment, this will give you the number of 43,200.

MILITARY ARRANGEMENTS.

The Washington "Union" says. The Department of the Interior, and the War Department, are in the hands of the Executive, and the relative efficiency of the different corps, and the relative efficiency of the different corps, and the relative efficiency of the different corps.
