The interminable coercion bill occupies the front of the political stage, and engrosses the attention of the chief actors. Lord John Russel has a scheme for reducing the duty on slave as well as colonial Sugar, on a scale extending over four years, at the end of which time colonists will have to shift for themselves in the absence of that now repudiated doctrine—"protection." As all duty on Corn will ccase in less than three years, it is desireable that Sugar, except for revenue, should be placed on an equally advantageous footing. But we are at the beginning of the end. The consumption of Sugar in this country would be increased to an almost incalculable extent with a low rate of duty, and the extinction of the stupid and dishonest cant about slave grown Sugar. 	and 1828, and was tied on the compromise bill of 1832. The middle states, including New York and Pennsylvania, at all times stood firm, casting a heavy majority in favor of the Tariff policy. We admit that there exists at present a strong feeling amongst the people of the South and West, against the Tariff of 1842; but the argu- ments used against the measure, so far as we have read them, are not new. Leading and influentia Federalists in the New England states used the same reasoning in opposition to the Tariff bills of 1820, 1824 and 1828; as we will presently prove to the satisfaction of the unprejudiced of all par- ties. Mr. WEBSTER violently opposed the Tariff bill of 1820, and at a meeting held in Fanuel Hall, Bos ton, on the 3d of October 1820, he supported and voted for the following resolutions, which were unanimously adopted : "Resolved, That no objection ought ever to be made to any amount of taxes equally apportioned, and imposed for the propose of raising recenue ne- cessary for the support of government, but that taxes imposed on the people for the sole biagif of any one class of men are equally inconsistent with the prin- ciples of our constitution and with sound policy. The general and permanent effect must be to increase the price of the article to the extent of the additional duty, and it is then paid by the consumer. It is proper that we should state that we find these extracts used by a western Repre-entative in a speech in favor of McKays bill. Indeed, the southern and western opponents of the tariff of 1812, have freely, and we presume effectually too used the arguments employed by the whigs of New England, against the tariff bills of 1820 and 1824. It is certainly wickedly unjust to charge the De- mocracy of Pennsylvania with having deceived or duped the people—the votes given above show how consistent has been their course in reference to the revenue policy of the country. Why not assail Mr. WENSTER, and other whigs of the east- tern states, for having at an early day scattered throughout the union arguments against the tariff policy? Why not assail Mr. Clay, for having protected the tariff of 1828? How is it now? 	and 1828, and was tied on the compromise bill of 1832. The middle states, including New York and Pennsylvania, at all times stood firm, casting a heavy majority in favor of the Tariff policy. We admit that there exists at present a strong feeling amongst the people of the South and West, against the Tariff of 1842; but the argu- ments used against the measure, so far as we have read them, are not new. Leading and influentia Federalists in the New England states used the same reasoning in opposition to the Tariff bills of 1820, 1824 and 1828; as we will presently prove to the satisfaction of the unprejudiced of all par- ties. Mr. WEBSTER violently opposed the Tariff bill of 1820, and at a meeting held in Fanuel Hall, Bos ton, on the 3d of October 1820, he supported and voted for the following resolutions, which were unanimously adopted : "Resolved, That no objection ought ever to be made to any amount of taxes equally apportioned and imposed for the support of government, but that taxes imposed on the people for the sole biagiff of any one class of men are equally inconsistent with the prin- ciples of our constitution and with sound policy. The general and permanent effect must be to increase the price of the article to the extent of the additional duty, and it is then paid by the consumer. It is proper that we should state that we find these extracts used by a western Representative in a speech in favor of McKays bill. Indeed, the southern and western opponents of the tariff of 1812, have freely, and we presume effectually too used the arguments employed by the whigs of New England, against the tariff bills of 1820 and 1824. It is certainly wickedly unjust to charge the De- mocracy of Pennsylvania with having deceived or duped the people—the votes given above show how consistent has been their course in reference to the revenue policy of the country. Why not assail Mr. WEBSTER, and other whigs of the east- tern states, for having at an early day scattered throughout the union arguments against the tariff policy? Why not assail Mr. Clay, for having protected the tariff of 1828? How is it now? The Pennsylvania Delegation in the House, with a single exception voted against M K ay's bill, yet are they charged with faithless- ness to the interests of the state, and with having duped the people. The interminable coercion bill occupies the front of the political stage, and engrosses the attention of the chief actors. Lord John Russel has a scheme for reducing the duty on slave as well as colonial Sugar, on a scale extending over four years, at the end of which time colonists will have to shift for themselves in the absence of that now repudiated doctrine—"protection." As all duty on Corn will cease in less than three years, it is desireable that Sugar, except for revenue, should be placed on an equally advantageous footing. But we are at the beginning of the end. The consumption of Sugar in this country would be increased to an almost incalculable extent and dishonest cant about slave grown Sugar. The sugar duties expire on the 5th proximo, and some modification must be introduced beiore that time. Peel's views have not transpired; no opportunity for developing them has been afforded him. The interminable coercion bill occupies the front of the political stage, and engrosses the attention of the chief actors. Lord John Russel has a scheme for reducing the duty on slave as well as colonial Sugar, on a scale extending over four years, at the end of which time colonists will have to shift for themselves in the absence of that now repudiated doctrine—"protection." As all duty on Corn will cease in less than three years, it is desireable that Sugar, except for revenue, should be placed on an equally advantageous footing. But we are at the beginning of the end. The consumption of Sugar in this country would be increased to an almost incalculable extent with a low rate of duty, and the extinction of the stupid and dishonest cant about slave grown Sugar. The rupture between Mexico and the United States has, of necessity, attracted much attention, and has interfered, more or less, with business.— The fear of shipping in American bottoms has, like the baseless fabric of a vision, disappeared, but Lloyds still cling ridiculously to their high premiums. We admit that there exists at present a strong feeling amongst the people of the South and West, against the Tariff of 1842; but the argu- ments used against the measure, so far as we have read them, are not new. Leading and influentia Federalists in the New England states used the same reasoning in opposition to the Tariff bills of 1820, 1824 and 1828; as we will presently prove to the satisfaction of the unprejudiced of all par- ties. Mr. WEBSTER violently opposed the Tariff bill of 1820, and at a meeting held in Fanuel Hall, Bos- ton, on the 3d of October 1820, he supported and voted for the following resolutions, which were unanimously adopted : "Resoled, That no objection ought ever to be made to any amount of taxes equally apportioned and imposed for the support of government, but that taxes imposed on the people for the sole biangfi of any one class of men are equally inconsistent with the prin- ciples of our constitution and with sound policy. That the supposition that, unt i the proposed tariff or some similar m navure be adopted, we are, and shall be, dependent on foreigners for the means of subsistence and defence, is, in our opinion, alto- gether fallarious and fanciful, and drogatory to the character of the nation. That high bounties on such domestic manufac- tures as are principally benefited by that tariff favor great capitalists rather than personal industry, we the commended to the unanimous judgement of the good people of Boston. Here is a passage from the argument of the master-spirit of the oc-	 and mentary. The general and permanent effect must be to increase the price of the article to the extent of the additional duty, and it is then paid by the consumer. It is proper that we should state that we find these extracts used by a western Representative in a speech in favor of McKays bill. Indeed, the southern and western opponents of the tariff of 1812, have freely, and we presume effectually too used the arguments employed by the whigs of New England, against the tariff bills of 1820 and 1821. It is certainly wickedly unjust to charge the Democracy of Pennsylvania with having deceived or duped the people—the votes given above show how consistent has been their course in reference to the revenue policy of the country. Why not assail Mr. WEBSTER, and other whigs of the usion arguments against the tariff policy? Why not assail Mr. Clay, for having protected the tariff of 1828? How is it now? The Pennsylvania Delegation in the House, with a single exception voted against M Kay's bill, yet are they charged with faithlessness to the interests of the state, and with having duped the people. There is, however, abundant consolation in the fact, that the people cannot be deceived by such vile falsehoods. DERT OF MEXICO.—Geu. Thompson, in , his work of Mexico, estimates the debt of the Republic at little less than \$100,000,000. Of this amount, something more than \$60,000,000 of the Viceroyal Government, which waa assvmed by Mexico after her independence, and 25,000,000 more to Mexican citizens. 	 "taken in" the country. Leading and influentia Federalists in the New England states used the same reasoning in opposition to the Tariff bills of 1820, 1824 and 1828; as we will presently prove to the satisfaction of the unprejudiced of all par- ties. Mr. WEBSTEN violently opposed the Tariff bill of 1820, and at a meeting held in Fanuel Hall, Bos ton, on the 3d of October 1820, he supported and voted for the following resolutions, which were unanimously adopted : "Resolved, That no objection ought ever to be made to any amount of taxes equally apportioned and imposed for the purpose of raising recenue ne- cessary for the support of governme, but that taxes imposed on the people for the sole bacfit of any one class of men are equally inconsistent with the prin- ciples of our constitution and with sound policy. That the supposition that, until the proposed tariff or some similar in saure be adopted, we are, and shall be, dependent on foreigners for the means of subsistence and defence, is, in our opinion, alto- gether fallacious and fanciful, and drogatory to the character of the nation. That high bounties on such domestic manufac- tures as are principally benefitted by that tariff favor great capitalists rather than personal industry, we the commended to the unanimous judgement of the good people of Boston Here is a passage from the argument of the master-spirit of the oc- casion. In addressing the Faneuil Hall meeting. Mr. Webster said:	f mentary. The general and permanent effect must be to increase the price of the article to the extent of the additional duty, and it is then paid by the consumer. It is proper that we should state that we find these extracts used by a western Repre-entative in a speech in favor of McKays bill. Indeed, the southern and western opponents of the tariff of 1812, have freely, and we presume effectually too used the arguments employed by the whigs of New England, against the tariff bills of 1820 and 1824. It is certainly wickedly unjust to charge the De- mocracy of Pennsylvania with having deceived or duped the people—the votes given above show how consistent has been their course in reference to the revenue policy of the country. Why not assail Mr. WEBSTER, and other whigs of the east- tern states, for having at an early day scattered throughout the union arguments against the tariff policy? Why not assail Mr. Clay, for having protected the tariff of 1828? How is it now? The Pennsylvania Delegation in the House, with a single exception voted against M Kay's bill, yet are they charged with faithless- ness to the interests of the state, and with having duped the people. There is, however, abundant consolation in the fact, that the people cannot be deceived by such vile falsehoods. DERT or MEXICO.—Geu. Thompson, in _ his work of Mexico, estimates the debt of the Repub- lic at little less than \$100,000,000. Of this a- mount, something more than \$60,000,000 are due to foreigners, including a debt of 36,000,000 of the Viceroyal Government, whieh was assymed by Mexico after her independence, and 25,000,000 more to Mexican citizens.—We learn from the Albany Citizens that tho Emmet Guards had: a digraceful fight in their drill room on Monday night; one had his throat partly cut, auother—and theory is the currence wavened for the meaned is an out is the the independence. Peel's views have not transpired, no opportunity for developing them has been affordel him. The interminable coercion bill occupies the front of the political stage, and engrosses the attention of the chief actors. Lord John Russel has a scheme for reducing the duty on slave as well as colonial Sugar, on a scale extending over four years, at the end of which time colonists will have to shift for themselves in the absence of that now repudiated doctrine—"protec- tion." As all duty on Corn will cease in less than three years, it is desireable that Sugar, except for revenue, should be placed on an equally advanta- geous footing. But we are at the beginning of the end. The consumption of Sugar in this country would be increased to an almost incalculable extent with a low rate of duty, and the extinction of the stupid and dishonest cant about slave grown Sugar. The rupture between Mexico and the United States has, of necessity, attracted much attention, and has interfered, more or less, with business.— The fear of shipping in American bottoms has, like the baseless fabric of a vision, disappeared, but Lloyds still cling ridiculously to their high pre- miums. The feeling is not confined to England.— The Paris paper <i>La Prese</i> , asserts as a fact, that many American orders have been countermanded in France, in consequence of the rupture between the two republics. The war itself has exercised the pens and the forces sustained one or two trilling guerilla rever- ses, a good deal of sympathy was shewn for the Mexicans, and if Jonathan had suffered more, the sorr. w, we grieve to add, would not have been in- tense. But when the Britannia agrived with an account of the Battles of "Palo Alto" and the "Palm Ravine," in which the Mexican, on what they claim as their own soil, with a force two or three times greater than their antagonists, were "wol- lopped' by the Americans, all sympathy disap- peared,	Strengthens and supports the rest. 	and 1828, and was tied on the compromise bill of 1832. The middle states, including New York and Pennsylvania, at all times stood firm, casting a heavy majority in favor of the Tariff policy. We admit that there exists at present a strong feeling amongst the people of the South and West, against the Tariff of 1842; but the argu- ments used against the measure, so far as we have read them, are not new. Leading and influentia Federalists in the New England states used the same reasoning in opposition to the Tariff bills of 1820, 1824 and 1828; as we will presently prove to the satisfaction of the unprejudiced of all par- ties. Mr. WEBSTER violently opposed the Tariff bill of 1820, and at a meeting held in Fanuel Hall, Bos ton, on the 3d if October 1820, he supported and voted for the following resolutions, which were unanimously adopted : "Resolved, That no objection ought ever to be made to any amount of taxes equally apportioned and imposed for the purpose of raising recenue ne- cessary for the support of governme, but that taxes imposed on the people for the sole bacfit of any one class of men are equally inconsistent with the prin- ciples of our constitution and with sound policy. The general and permanent effect must be to increase the price of the article to the extent of thi additional duty, and it is then paid by the consumer. It is proper that we should state that we find these extracts used by a western Representative in a speech in favor of McKays bill. Indeed, the southern and western opponents of the tariff of 1812, have freely, and we presume effectually too used the arguments employed by the whigs of New England, against the tariff bills of 1820 and 1824. It is certainly wickedly unjust to charge the De- mocracy of Pennsylvania with having deceived or duped the people—the votes given above show how consistent has been their course in reference to the revenue policy of the country. Why not assail Mr. WEBSTER, and other whigs of the east- tern states, for having at an early day scattered throughout the union arguments against the tariff policy? Why not assail Mr. Clay, for having protected the tariff of 1828? How is it now? The Pennsylvania Delegation in the House, with a single exception voted against M K ay's bill, yet are they charged with faithless- ness to the interests of the state, and with having duped the people. There is, however, abundant consolation in the fact, that the people cannot be deceived by such vile falsehoods. DENT or MEXICO.—Geu. Thompson, in_ his work of Mexico, estimates the debt of the Repub- lic at little less than \$100,000,000 of the Viceroyal Government, which waa assymed by Mexico after her independence, and 25,000,000 more to Mexican citizens. BELLIGERANT SOLDIERS.—We learn from the Albany Citizens that tho Emmet Guards had a disgraceful fight in their drill room on Monday night; one had his throat partly cut, auother—and report says two—suffeced severely from the effects of bruises on the head made by slung shot, and not	 "taken in" the country. The sugar duties expire on the 5th proximo, and some modification must be introduced beior that time. Peel's views have not transpired, no opportunity for developing them has been afforded him. The interminable coercion bill occupies the front of the political stage, and engrosses the attention of the chief actors. Lord John Russel has a scheme for reducing the duty on slave as well as colonial Sugar, on a scale extending over four years, at the end of which time colonists will have to shift for themselves in the absence of that now repudiated doctrine—"protection." As all duty on Corn will cease in less than three years, it is desireable that Sugar, except for reveue, should be placed on an equally advantageous footing. But we are at the beginning of the end. The consumption of Sugar in this country would be increased to an almost incalculable extention," and dishonest cant about slave grown Sugar. The rao of shipping in American bottoms has, like the baseless fabric of a vision, disappeared, but Lloyds still cling ridiculously to their high premiums. The feeling is not confined to England,—The Fari paper La Prese, asserts as a fact, that many American orders have been countermanded in France, in consequence of the rupture between the two republics. The war itself has exercised the pens and the tongues.of all the professional politicians in the old world. In the early stage of the struggle on the banks of the Rio Grande, when the American forces sustained one or two trifling guerilla reverses, a good deal of sympathy was shewn for the Mexican, and if Jonathan had suffered more, the effort and engrous soil, with a force two or three times greater than their antagonists, were "woil lopped" by the Americans. all sympathy disappared, bat the order on sympathy with poltroons. That high bounties on such domestic manufac- tures as are principally benefited by that tariff favor great capitalists rather than personal industry, we the commended to the unanimous judgement of the good people of Boston Here is a passage from the argument of the master-spirit of the oc- casion. In addressing the Faneuil Hall meeting. Mr. Webster said: "There is a power in names, and those who had meased the tariff on Congress.	f mentary. The general and permanent effect must be to increase the price of the article to the extent of thi additional duty, and it is then paid by the consumer. It is proper that we should state that we find these extracts used by a western Representative in a speech in favor of McKays bill. Indeed, the southern and western opponents of the tariff of 1812, have freely, and we presume effectually too used the arguments employed by the whigs of New England, against the tariff bills of 1820 and 1824. It is certainly wickedly unjust to charge the De- mocracy of Pennsylvania with having deceived or duped the people—the votes given above show how consistent has been their course in reference to the revenue policy of the country. Why not assail Mr. WEBSTER, and other whigs of the east- tern states, for having at an early day scattered throughout the union arguments against the tariff policy? Why not assail Mr. Clay, for having protected the tariff of 1828? How is it now? The Pennsylvania Delegation in the House, with a single exception voted against M K ay's bill, yet are they charged with faithless- ness to the interests of the state, and with having duped the people. There is, however, abundant consolation in the fact, that the people cannot be deceived by such vile falsehoods. DENT or MEXICO.—Geu. Thompson, in_ his work of Mexico, estimates the debt of the Repub- lic at little less than \$100,000,000 of the Viceroyal Government, which waa assymed by Mexico after her independence, and 25,000,000 more to Mexican citizens. BELLIGERANT SOLDIERS.—We learn from the Albany Citizens that tho Emmet Guards had a disgraceful fight in their drill room on Monday night; one had his throat partly cut, auother—and report says two—suffeced severely from the effects of bruises on the head made by slung shot, and not	 "taken in" the country. The sugar duties expire on the 5th proximo, and some modification must be introduced beior that time. Peel's views have not transpired, no opportunity for developing them has been afforded him. The interminable coercion bill occupies the front of the political stage, and engrosses the attention of the chief actors. Lord John Russel has a scheme for reducing the duty on slave as well as colonial Sugar, on a scale extending over four years, at the end of which time colonists will have to shift for themselves in the absence of that now repudiated doctrine—"protection." As all duty on Corn will cease in less than three years, it is desireable that Sugar, except for reveue, should be placed on an equally advantageous footing. But we are at the beginning of the end. The consumption of Sugar in this country would be increased to an almost incalculable extention," and dishonest cant about slave grown Sugar. The rao of shipping in American bottoms has, like the baseless fabric of a vision, disappeared, but Lloyds still cling ridiculously to their high premiums. The feeling is not confined to England,—The Fari paper La Prese, asserts as a fact, that many American orders have been countermanded in France, in consequence of the rupture between the two republics. The war itself has exercised the pens and the tongues.of all the professional politicians in the old world. In the early stage of the struggle on the banks of the Rio Grande, when the American forces sustained one or two trifling guerilla reverses, a good deal of sympathy was shewn for the Mexican, and if Jonathan had suffered more, the effort and engrous soil, with a force two or three times greater than their antagonists, were "woil lopped" by the Americans. all sympathy disappared, bat the order on sympathy with poltroons. The bird that cannot fight on his own dunghill is only fit to grace the spit. 	Strengthens and supports the rest. For the structure that we raise, Time is with materials filled; Our to days and yesterdays Are the blocks with which we build. Truly shape-and fashion these; Leave no yawning gaps between; Think not, because no man sees, Such things will remain unseen. In the elder days of Art, Builders wrought with, greatest care, Each minute and unseen part; For the gods see everywhere. Let us do our work as well, Both the unseen and the seen; Make the house, where gods may dwell, Beautiful, entire and clean. Else our lives are incomplete, Standing in these walls of Time, Broken stair-ways, where the feet Stumble as they seek to climb. Build to-day, then, strong and sure, With a firm and ample base; And ascending, and secure Shall to-morrow find its place. Thus alone can we attain To those turrets where the eye Sees the world as one vast plain And one boundless reach of sky. TO THE PUBLIC and to my original Constituents, in my election for the office of Coroner of Alle- gheny County, I return my sincere and unequivocal thanks at the present time.
