CAMP LOMETO, MEXICO, June 25, 1846, time has been given for dispassionate retrospect, after having passed through scenes of bustle and excitement naturally attendant upon hasty move-

"Well, after this, just bear in mind that it takes ments.

Our destination had been Point Isabel, but whether the result of caprice or accident, we were dropped on Brazos Island, a circumstance much to dropped on Drazos Island, a circumstance much to be regretted on account of the sickness which May's situation during the battle of the 9th, and Gen. Taylor had ordered you, as he did Capt. May to take those batteries (the Mexican) noins volus!" the exceeding one in breath. It is a perfect plain, with the exception of a chain of sand banks, or ridges, that would you have done, and how would you have acted?"

These queries were put a few days since to a military gentleman who relates in some except.

What would I have done, ha? Why I would have told him, by G-d, that if he wanted those dry sand upon the victuals and clothing of the men, batteries worse than I did, to go and take them himthe sand for repose, soon became damp, and, although daily dried in the sun, upon the approach "Can you swim, sir?" asked an Irishman of of evening, the humidity of the atmosphere caused a fraveller about to attempt a swollen ford, "No!" a deliquescene of the saline deposit, with which was the reply. "Och, then," said Pat, "as it's deep in some parts, the only safe plan for your honor sick man's couch. Diseases of the lungs, so un approach of the summer solstice, were common make. We will insert none without the name of the author being first made known to us, and Onio Volunteers.—The volunteers from Ohio, cipated, the men suffered greatly, which was more the author being first made known to us, and out from the army's scourge more rationally antinombering \$28 rank and file, arrived at New Or. over superinduced by the brackish water tha poorly allayed an insatiable thirst. The regiments

that arrived after ours upon that miserable island,

The Mother of Consumptions.

This fact is clearly demonstrated wherever we have a sudden change in the weather. It is at this time that the seed of Consumption is sown in the system nurtured until the Lungs become serious ly and dangerously diseased, when in all probability the patient, for the first time, will begin to seek relief. How many thousands thus neglect themselves out landings upon the British and August, between the Sault de St. Marie and the various ports, as business may warrant. The L. this interesting mystery, which has bewildered many Savans of Europe and America. In one visit the greatest unbeliever will be convinced of the truth of this most occult of wonders which the world has ever known, or ever remain a skeptic. This art was discovered by Dr. Bradshaw when travelling in Egypt among the natives on the banks of the river Nile. The subject will be managed in such a manner as to insure the most happy results, and with a strict regard to its scientific and philosophic bearings. The audience will have the liberty of appointing a Chairman and three of the most scientific gentlemen in the room as a the most scientific gentlemen in the room as a continuous continuous to investigate this science by examining the persons put in the magnetic state in the presence of the audience, and many astounding extractions.

presence of the audience, and many astounding experiments which baffle all attempts at description will be performed by the Ladies and Gentlemen in the magnetic state.
