von Rumin Convenience We commend the fol lowing suggestions to a certain class of people who Ndier histiate to hall the wrong bus as you cannot be expected to read the large letters on the side, and the time of other people is nothing to you.

Witen you get into the bus, tell the conductor the place where you wish to be put down; and having done so, never care to look out for yourself when you. On entering a bus, if you carry a stick or an umbrells, lig particular to swing it about with the point upwards. Taking care of other people's eyes is no business of yours, and the stick will clear the way for you in a most approximate. for you in a most surprising manner.

If the umbrella is wet, put the point of it into any body's shoos; you will thus prove that you are a per son of precise method, having a place for everything gers can get in or out easily, is, of course, no affair of When you take a seat, sit sideways, and occupy much room as possible. Every body has a right to get as much room as he can for his money. Never move to give a new passenger accommoda-tion. You have shifted for yourself; let the new comer do the same. You will thus prove that vo consider yourself quite as good as anybody else.

Never get your money ready before stopping th bus. If the money is worth having, it is wort waiting for, and you teach public servants submissionly such treatment. THE MERCHANTS' EXCHANGE.—The Chronicle estanday afternoon in a notice of this institution says, very truly, that it has now, although only i ts second year, become invaluable to the mercantile nterest of this community, for whose benefit it was stablished-fully realizing the most sanguine exectations of its enterprising founders. The advanages it has vielded to the merchants and manufac turers of this city can only be appreciated by daily visitors, and those who avail themselves of its facilities for the interchange of commercial information, and who have, heretofore, known the difficulties of obaining reliable knowledge of many important commercial transactions, which can only be developed through an institution of this kind. The facilities afforded by the obliging Superintendent, Mr. S. T. make it appear to us very reprehensible for any of our morchants to absent themselves from a place which is undoubtedly the heart of our business v EXTENSIVE OPERATIONS IN COUNTERFEIT MONEY -The good people of Monongahela City have been

A very simple yet philosophical instrument, has been invented by J. Ball & Co., of this city, by the application of which the cornea of the syr is gradually raised to its original convexity, causing the focus to impinge on the retina without the aid of convex lenses. Thus by an cury process persons who have used glasses for years are enabled to dispense with them. The editor of the Pennsylvania Democrat writes as follows, respecting the cure of Mrs. Gurstend, of Uniontown, Pennsylvania: Uniontown, Pa., August 1, 1854. Being well acquainted with Mrs. Gurstead, I know tha Being well acquainted with Mrs. Guratead, I know the before she used "Ball's Patent Eye Cups," it was impossiful for her to read without the use of spectacles, and that sight has been restored by the use of the Cups, so that

Belcherrows, June 1, 1854.

Dear Nir—Having lost my sight by old age, I was induced to purchase your wonderful instruments, and by using the same according to your directions, I succeeded in restoring my sight so that I can read by night or day without spectacles. I have not used my spectacles for the last three or four months, which shows that the restoration is not a temporary one, but a valuable and permanent cure.

ANOTHER CURE OF SCROFULA.
Thor, N. Y. September 1, 1854.

Mesers. A. B. & D. Sands—Gentlemen: I have for nearly three years been troubled with that dreadful disease, Scrofula; so much so, as to be offensive to my husband and to myself; and to obtain relief, have tried every kind of medicine that came under my notice, without effect. One of my neighbors, who had been cured of a similar complaint by your Sarsaparills, advised me to make a trial of it, and I can truly say that it has done me a world of good, having completely cured me. Hoping that my avidence may induce others similarly afflicted to adopt the same remedy, with the same satisfactory results, I remain gratefully yours,

SARAH J. POSIMAN.

MEDICAL BOERHAVES HOLLAND BITTERS"

ELECTRO-CHEMISCHE AROMA Echt Hollandsch Kruiden Bitters:

TWO YEARS have elapsed since the introduction of this valuable medicine into the United States.

During this time it has gained a universal popularity as a
remedy for

Ferer and Ague, Dispepsia, Indigestion, Headache,
Loss of Agreetie, Debitity, Contineness,

Hand and Electing Files.

Many of our most worthy citizent testify to its wonderful
efficacy in all affections of the stomach and liver. As a
tonic-it never has been equalled, for the relief it affords in
all cases of debility or weakness of any kind is almost instantaneous. In nervous, rhoumants and neuralgic affections, it has in numerous instances proved highly beneficial,
and in others effected a decided cure.

When eminent physicians prescribe, and their patients so ions, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

When eminent physicians prescribe, and their patients so unhesitatingly recommend, surely we may cease to doubt, and eagerly test its virtues for ourselves.

FEVER AND AGUE.

A Give of Eight Months' Sanding Gured by Boerhard's High Internation on the river, on a cotton bout plying between Natchez and New Orloans, I was a taken with fever and agne. For eight long months I suffered with this dreadful disease. The greater part of this time I was unable to work, and spent at least fifty dollars for different medicines, but I found no permanent relief. Three weeks ago, one of my friends insisted upon my trying Boershave's Helland Bitters, saying that a cure coas guarwided. After taking it for one week, I must state I was a sound man. I have been at work now for two weeks, and have had no return of the chills and favor whetever."
