Powder.

This article has suddenly assumed a new importance. A reference to our quotations will show that a very large advance has taken place. It is well known that saltpetre enters largely into the composition of powder, but it may not be known that all our supplies of this article are imported from foreign countries. Calcutta fur-nishes a large part of this importation. Since the European war has promised to need all the powder that can be made in Great Britain, the (hovernment of that country hes prohibited in run as follow

This well known that salipetre enters largely into the composition of powder, but it may not be known that all our supplies of this article are imported from foreign countries. Calcutta fur-nishes a large part of this importation. Since the European war has promised to need all the powder that can be made in Great Britain, the government of that country has prohibited its export to any other than the English market. This prohibition has been carried so far that vessel which had loaded at Calcutta for the Uni-ted States, was obliged to give up this part of the carge. GREAT DISCOVERY: MPLE TESTS, both by able Practitioners and Chemical Analysis, have demonstrated the great value of PROF. DE (BATH'S) beautiful combination, called "ELECTRIC OIL," for the relief and cure of Pain. But the people thomselves are readering their verdict in a manuer but unmistakeable and satisfactory. More than 20,000 bot-ties have been sold in a very short time—a great proportion to those who heard others recommend it, who had tried it. That it is a splendid discovery, is everywhere acknowledged; and nothing like it was ever before prepared. Why, for consts alone, it is worth \$100,000 a year to the people, as it lavays cures these painful tormantons in the people, as it always cures these painful tormantons in the people, as it from the tries and antification.
