INCREASE OF THE NAVY. tion has about thirteen hundred miles of sea- mistake. const on the Pacific ocean, and twice that extent of coast on the Atlantic and the Gulf of Mexico.

This nation has now more ships and steamers and tonnage affoat than any other nation on the globe. The value of our shipping and commerce is immense; and it is scattered over all the seas and oceans. And yet for its protection we have not over eighty war vessels of all classes, and sion or fit for immediate service. Should hostilities suddenly commence between this country . with any nation a most improbable event. No fore they amounted to \$3,966 98. nation would assail us if we had such a navy as would be commensurate with our commerce, our population and wealth, and with the extent

of our scaboard and value of our scaports to be and the nation has abundant wealth and means to supply in two years this much needed national security. There is now locked up in the national treasury, and practically useless, money enough to build and equip in one year twenty war steamers of the largest and most formidable effectiveness. Six vessels of that class are now which have lately been launched. At least four
