The river at this point was rising posterday. Detached pieces of slushy the continued floating past, but proved no obstacle to steambasts. Since the disappearance of the heavy floating ice, the harbor has been alive with steamers moving up and down, and a number of steambasts damaged and sound, have arrived. For several days to come, large numbers of boats will continue to arrive from Cairo, which place is now atmost deserted by steambouts. The Editor has gone down, we under stand, to Memphis. The Edvia, Bunker Hill, and other boats which were lying above Cairo all winter, will probably be here today.
