THE NEWS. The Chairman of the State Central Committee has called a meeting which is to take place on the 22d, (to-morrow) at the Merchant's Hotel, Philadelphia.

A correspondent of the Boston Atlas says that C.4. John C. Fremont is a member of the Roman Catholic Church. If there should be a fusion of the Know Nothings and Republicans it will be apt to end the gallant Colonel's chances for a nomination by that party.

After the conviction and sentence of Gray, the vitriol man, some months ago, these miscreants have kept very dark ; but they have again made their appearance in New York. A number of Lolles have had their dresses ruined in this manner.

WHAT PROPORTION OF MERCHANTS ARE SUCCESS The Boston Traveler refers to a circular draw 1808, by Nathan Appleton, and signed by 169 business mer, comprising sixty four firms, then doing business in that city, to show the incorrectness

of a popular theory that few people in commercial business succeed. Of these signers, whose names are given, the Toursder says, fifty of the one hundred and nine were unsuccessful, and only six of that fifty are now living. Fifty-nine of the 109 may be considered as having been, in a greater of less degree, successful in business, as they acquired property and never failed. Of this number twenty are now living. Thirty-two of the number acquired sufficient property to be independent and confortable, varying in amounts, but none supposed to exceed one hundred thousand dollars. Thirteen acquired fortunes, varying from one hundred thousand to three hundred thousand dollars. Seven acquired fortunes of between three hundred thousand thousand dollars. Seven acquired fortunes of between three hundred thousand thousand dollars. Seven acquired fortunes acquired fortunes supposed to be at least one million of dollars, four of whom are now living. red and nine were unsuccessful, and only six of re new living.
