THE PEACE RUMORS.

it has been decided to admit to the Conference France. plempotentiaries from Prussia. It is well known favor of fair terms for Prussia. With these facts known the admission of the representatives of Prussia indicate that peace may be the result. It is no doubt true that the French Emperor also begines peace; and Russia wishes it, but not apon humiliating terms. And these are all the facts known that lead to the confident expectations and predictions that peace will be the result of the Paris Conference.

On the other hand England has by no means gained all her purposes by the war, and wants it continued until the Prussian power is utterly driven out of the Caucasian nations of Asia, and the road to British India thus effectually closed against the great power of the north. England will not favor peace at this time; but with France, Russia, Austria and Prussia in favor of it, she may not be able to prevent it. The Philadelphia North American says on the

subject: The Palmerston ministry, so violently apposed to a participation of Prussia in the decussions of the Congress of Paris, after having been silenced by the resolution on the part of the plenipotentiaries to keep their own counsel, has silentiv also to submit, as it would appear from the last advices, to the admission of that obstinate and intractible power. Despatchefrom Berlin and Vienna state that Prussia habeen invited to send representatives to the Conference; that she accepts, and that Baron Manteoffel would leave Berlin on the 14th for Paris as Plenipotentiary, Mr. Hatsfeld, the Prussian Capital stock pard in Collectable, successed Minister to the Court of France, to act as second. Lord Palmerston's refusal to answer the question as to the truth of this statement, is calculated to ministerial policy hitherto pursued required a To complete and true part confirm the report.
