insucted as Agentso many years in the sale of their Plano Fortes.

It has now become quite familiar to the subscriber to hear from persons who call to look at their Plano Fortes "THEY HAVE BEEN TOLD that they were not in a little while." That since the death of Jonas Chickering their Planos were not worth anything: "That their reputation was lost." "That the late Jonas Chickering had act modelfied on his death feet, to a New York manufacturer, that he did not put as much work on the INSIDE of his Planos as they did, by forty or fifty dollars!" The truth of the last and ingenious death berkfordy! may be inferred from the simple fact announced at the time in almost every newspaper in the United States, that the late Jonas Chickering's death occhired at a memon's warning while sitting in his chair, at the house of a friend in Boston.

The subscriber is willing to risk his reputation as a dealer. The subscriber is withing to risk his reputation as a dealer Piano Fortes for twenty-live years in this city, in saying, in Piano Fortes for twenty-live years in this city, in saying, and assuring those who want Instruments, that the Piano Fortest manufactured by Chickering 2 Sons, are not only fully equal to these manufactured during the life time of their father, but are vastly supering the elder, the subscriber has seld in this clyg, and vicinity upwards of one hundeed and fifty Piano Borkes, manufactured by the new firm of Chickering & Sons, and J. NO INSTANOE has he ever heard a complaint from this purchasers, but, on the contrary, the most satisfactory commendations.
