THE MEMOIR -We publish this morning th memoir of James Buchanan, which has been adopted by the State Central Committee, and is an able and faithful exposition of the opinions and character of the great Pennsylvania states-

FOREIGN NEWS. On the 80th of March the treaty of peace was signed at Paris. The war began on the 27th March 1854. Two years and three days of war; a half a million lives sacrificed; five hundred million dollars spent, and not five dollars worth of good done. The treaty takes effect from its date, so there is peace in Europe now. The guns the Tower of London "went off" in honor o the event, yet no one knows what the terms the treaty are.

The London Times is not half satisfied. In an article it fairly admits that England has not gained half the glory that France has. Want of skill in her Generals, and reform in her military system, the cause. France, it says, has come out gloriously. Russia has suffered vast losses however, according to the Times, and that is some consolation. It gives Austria and Prussia a parting kick, and calls them "the poor spirited supporters of each side alternately." And it adds, " Let Germany look to it, for evil is before her. Murder!! It is perfectly apparent from the tone of the London press that the peace is forced upon England: but she must "eat the leek" since Louis Napoleon wills it. The London Times in its dumps calls Gen. Cass "a foulmouthed old fellow." The General "still lives." Lord Clarendon will be made a Marquis for signing a treaty that the English don't like a bit. The Count Waleriski, French Minister of foreign affairs, was presented by his wife with a new daughter only four hours after he signed the treaty of peace. Just think of that !! Parliament has re-assembled in England; and Louis Napoleon has made a speech in France!

ANOTHER GUN SPIKED. Most of our readers have doubtless heard of the Kansas Herald of Freedom, a Free Soil, Free guished men. Speeches were made by Senators territory. It is the paper patronized and relied M. Botts. A banquet was prepared, and parts. Fean & Co on by the Republican presses of the North for ken. Most of our readers are aware, too, that President Pierce was greatly blamed and vilified because he did not interfere to prevent the Missourians from going into Kansas to vote. About the same time the Free State men, represented by Lane and Robinson called upon the President to employ the military force to prevent the Missourians from invading Kanasas. "We published the proclamation of President Pierce a week or two ago in regard to Kansas mat ters. We are glad of that proclamation. It has al-ready prevented an invasion from Missouri, and a re-sort to bloodshed by citizens in self-defence. "The proclamation of President Pierce is not so villainous a document as the telegraph reports made it, and as to the instructions to Governor Shannon, it, and as to the instructions to Governor Shannon, they are all we could expect or even desire. While the Governor shides by the letter of those instructions, it will afford as pleasure to sustain him.
