LOCAL AFFAIRS THURSDAY MORNING

Adjournment of the Legislature .- This interesting body adjourned sine die on Tuesday. It has become the babit of late years to judge of the doings of such assemblages, not by the amount of good performed, but by the amount of evil which it was possible to do, but which in their wisdom is left undone. Among the failures, we may note that of the repeal of the Allegheny Paving Law. A desperate attempt was made to annul the old law, but the very emphatic expression of opinion by the people of Allegheny decided the matter in its favor. The High School is also to have another year of trial. By that time is also to have another year of trial. By that time we hope and believe its opponents will have dwin. we hope and believe its opponents will have dwin-dled into insignificance. At any rate, whether right states and Canada. or wrong, it is no more than justice that it should have a fair trial before being condemned. On the other hand, a bill has passed both branches, which is now in the hands of the Governor, placing deposit banks under the thirtieth section of the General Banking Law; that is, prohibiting them from receiving or paying out currency on notes discounted. For such a such a such as the people with whom we be such as the property of the feeling among the people with whom we be such as the property of the feeling among the people with whom we From the feeling among the people with whom we have conversed, we should judge that the sentiment of the community is decidedly against this bill. Petitions are now circulating requesting the Governor to veto it. They are numerously signed by our merchants and business men.

Number of Licenses for Allegheny County - The lioard of Licensers met ngain yesterday, and at the afternoon session allowed the following as the aggregate number of licenses to be awarded in this county to eating and drinking houses:

93 taverns

Pittsburgh, Boroughs,

This aggregate we are informed is considerably greater than the number of licenses granted in Allegheny county in 1854. It is probable, however, that the number of drinking houses then in existence was not smaller, as many were then selling which were not licensed so to do. In Philadelphia the number of drinking houses has been reduced from over three thousand to one thousand.

The Portage Railroad .- A Mixtake .- The "Com mercial Journal" of yesterday contains the followtur "A part of the Tunnel and deep cut on the Portage Railroad belonging to the State, has been filled by an extensive slip. Men are at work actively and in force, removing it, but time will be re juired to enable section boats to pass, many of which are waiting." This is a mistake. The slip spoken of was cleared away on Saturday morning last, and since then there has been no impediment on the line of the State Works. We may mention, by the way that Mesers, Lloyd & Lemen received the first con signment of through goods from the East on Tuesday. Everything indicates a fine business on the

night, at Excelsior Hall, in Allegheny city. Many popular artists have proffered their services for the ecasion, and an agreeable entertainment may be anticipated. The programme comprises several beautitul and favorite pieces, which we have no doubt will be performed to the satisfaction of all who may bewing agencies
