in 1847 was plainly and explicitly precisely the same as that on which the Kansus-Nebraska act was defended. To show that we are unquestionably right this subject we will re-publish that part of Judge McLean's letter in which he is speaking of the territories, and of nothing else. Here it is:

" Now, there is no specific power in the Constitu ion which authorizes the organization of a Territoria Such a power was given in relation to Columbia, and it was equally neces sary in regard to other Territories. It was but twenty-five cents an acre for the soil. and it is rich in the most valuable minerals While our government has abundant means, le it continue to purchase those fruitful realms, and open them to the use of civilized man. " Manifest destiny" must be worked out; and if it is done by fair purchase, none but dunces can ob-

Under such circum stances a bargain is the most natural thing in the world, and to call it fillibustering is a silly atbor of the Gazette, the other day, and, as we exthat must be the consummation, and it is useless to resist that destiny.
