625 Look Well to the East. --Moroantown,
Va., Oct. 29, 1865. --This is to certify that, in the early part
of last year my health began to decline, and for so rationally 1 had frequent Hemorthages from the Lungs, bad
tough, pain in the side and shoulder, and great debility. In
short, my friends, as well as myself, thought I was far gone
in Consumption. After trying various means without any

JAMES WIND Chalgrage.

he city.

JAMES WOOD, Chairman.
[myl4:tmy24—chC] S. A. Long. Secretary. SHINGLE MACHINE. owing to a Diseased Liver. Before I had used one box of Kendall's Patent IMPRONED Double Acting River & Shaver. can, with confidence, recommend them to those similarly

DOUBLE ACING RIVER & SHAVER.

THE attention of Shingle and Lumber dealers, speculators and others, is directed to this invaluable invention, which is now presented to the public as the first and only practical machine extant, for Riving and Saaving Shingles.

Various culting and sawing machines have been invented for making Shingles, but it is a well known fact that Shingle cut or sawed across the grain are quite too dimay for rooting purposes. Numerous inventions have recently appeared for riving and shaving, and these have all been condemned as worthless, from their imperfect method of riving, which consists of splitting from the side of the block but one A. C. DORSEY. KENDALL'S MACHINE. NEWS FROM THE FOUNTAIN HEAD!

first splits from the side of the block a piece in for two shingles, which is soparated in the ce y means of clastic guides each part is conditionally in the center of the state. This machine will rive and shave from the block thousand shingles per hour, of uniform thickness and taper superior in solidity and durability to those made by hand of any other process.

Its operations are by no means confined to pine and other soft wood, but works to equal advantage bak, wainut, and off wood, but works to equal advantage bak, walnut, and very other description of timber that can be split. The workings of the machine can be examined at H. II. () an's Furniture Buildings, Fifth street, Pittsburgh.

... or machine occupies but a small space, is of durable construction, and costs but about two hundred and eighty dolling, and a man and two boys can make from 20,000 to 5,000 shingles per day, with about three horse power. For right of territory, or machines, the other trees, or at the City Heart. 25.000 sningies per day, with about three horse power. For right of territory, or inschines, inquire at No. 31 Fightstreet, or at the City Hotel.

25. All needed information will be forwarded by letter, when desired. [mh29:2m] ADONIRAN KENDALL. SAMUEL FAHNESTOCK. IMPORTER & DEALER IN
