This remedy will certainly cure Falling of the Womb. Whites. Disordered Menstruction, Diseases of Pregnancy. All troubles at the change of life, both with young and old, and all the various kinds of weakness and nervous complaints caused by disordered uterine organs.

THE PRINCIPLE SYMPTOMS indicating diseases for which the Catholicon is offered as a certain cure, are weakness in the back, tingling and panietween the shoulder blades, extending all along down the spine, soreness in the end, of the spine, bearing down pains in the uterine origins, showing pains extending to the bowels and into the bips, sympathetic pains in the hreasts, burning in the pit of the stomach, irregularity of the bowels, sometimes with diarrhox, and again with obstinate constipation, cold feet, capit-ious appetite, headache of a harmering or beating character, with rouring or whistling in

Many interine complaints are supposed to be heart disease from the sympathetic distributioness connected with that organ, but the CATHOLICON should always be taken, and in nine cases out of ten it will be found that nothing is the matter with the heart, and that a cure will soon follow its use. It will also relieve that feeling known us the heart rising in the mouth and turning over.

The medicine is accompanied by full directions, enabling very one to understand her own case, thus preventing the necessity of medical consultation, and what is more important, entirely doing away with medical examinations, which are justly tooked upon by women as a violation of their are justly looked upon by women as a violation of their most sacred feelings, and to avoid which will suffer excruciating pain, and sometimes lose life itsel. In this view, one of the most highly educated physicians of the present day, and one who has a world-wide reputation, stated that the efforts of the thrusfenberg Company would be appreciated by every female of any deficacy, and that the skilfful adaptation of the remedy which obvinted the necessity of personal exposure, would entitle them to the appreciation of every man who valued female modesty as the sufeguard of her purify, and the most precious and brilliant jewel belonging to her character.
