Such then are the signs, the strong indications in this State: and they warrant the belief will be divided between Fillmore and Fremont. What then will be Buchanan's majority in his personified: native State.

THE BILL OF PEACE. - The principal objection urged by the Abolitionists to the bill for the settement of the Kansas difficulties, and which has passed the Senate by a very large vote, is that the free state men have been frightened out of the territory during the late disturbances. This is all a mistake. An amendment was offered by Mr. Douglas and adopted, by which all those who have been thus driven out of the territor

may return at any time before the 1st of October. and, upon declaring that they return for the purpose of permaneut residence, the Commissioners shall put their names upon the list of voters, and they will be allowed to vote. Thus that objection is entirely overcome. What further objection can be made to the bill we are at a loss

We are glad to see that there are signs that the bill will pass the House too, as well as the Senate. Damaging as the bill is to the cause that can only be sustained by agitation and excitement, this bill of peace and repose is so fair and just and necessary that the abolitionists will hardly dare attempt its defeat. If they do defeat in that city, wrote: it, the base act will do them infinitely more harm for a mere electioneering purpose.

OF REEDOM A CRIME AGAINST DEMOCRACY. - In some parts of the north the Buchanan party professes to be in favor of the admission of Kansas as a free State; but the Pittsburgh Post oldly throws off this disguise, and proclaims every man a traitor to Democracy who favors the admission of that State with a free Constitution.

We publish the above extract from the Pitts ourgh Gazette, to show how infamous a story it can tell. It is well-known that the Post has uniformly expressed the wish and the confident belief that Kansas would be a free state. We not drive all free state men out of the territory.
